The following papers on the subject of throwing open for cultivation the tank bed of Ooginahalli (Gudehosahalli) tank in the Krishnarajpete Taluk :—

(1) Government Order No. R. 974-6—L. R. 29-09-41, dated the 13th August 1910.

(2) Letter No. 5685, dated the 16th November 1914, from the Revenue Commissioner in Mysore.

(3) Letter No. 722, dated the 15th December 1914, from the Superintending Engineer, Cauvery Reservoir Works.

(4) Letter No. 393, dated the 18th March 1915, from the Deputy Commissioner, Mysore District.

Order No. R. 9832-36—L. R. 241-14-34, dated 8th May 1915.

On the proposals submitted by the Special Land Acquisition Officer and the Deputy Commissioner of Mysore, the Revenue Commissioner recommends the grant of the bed of Ooginahalli (Gudehosahalli) tank in the Krishnarajpete Taluk for wet cultivation with a view to utilize the same for compensating certain Inamdars of Kundur and Kalhalli inam villages in which their vritti lands will come under submersion in the first stage of the Cauvery Reservoir.

2. Out of the total area of the tank bed which is 49 acres, about 30 acres have already been made available for cultivation, though so far only 3 acres 3 guntas have been actually given out for occupancy to certain jodidars of Kaigonahalli village in 1910, as ordered in Government Order No. 974-6—L. R. 29-09-41, dated the 13th August 1910.

3. The bed is entirely silted up and is reported to hold only a small quantity of water sufficient to provide drinking water for cattle for about a month in the dry season. The wet and garden lands below the tank bund are directly irrigated by the north channel from the Sriramadevaru dam. The raiyats are reported to be in favour of the entire bed being thrown open for wet cultivation so as to prevent water-logging of the gardens. In these circumstances, Government are pleased to sanction the proposal to render available for cultivation the entire remaining area of the tank bed, with the direction that about 2 acres of conveniently situated land should be reserved as a *katte* for cattle.

4. The estimate amounting to Rs. 1,038 prepared by the Executive Engineer, Hassan Division, for the works necessary to be carried out in order to throw open the tank bed for wet cultivation has already been sanctioned by Government in the Public Works Department and work ordered to be started immediately, the cost being debited to the sub-head "Compensation" of the Cauvery Reservoir Project.

No. R. 9832-36—L. R. 241-14-34, DATED 8TH MAY 1915.

5. The Deputy Commissioner is requested to deal suitably with the proposal of the Land Acquisition Officer to distribute 10 acres of land among the poorer raiyats of Gudehosahalli and Ooginahalli for an upset price of Rs. 400 per acre recoverable in 4 annual instalments of Rs. 100 each.

Letter No. 7585, dated the 28th December 1914, from the Revenue Commissioner in Mysore, forwarding for orders with the opinion of the Deputy Commissioner, Mysore District, copy of a letter from the Special Land Acquisition Officer, Cauvery Reservoir Works, submitting proposals in the matter of the levy of contribution and water- rate on the existing wet and garden lands, which will be commanded by the new Cauvery channels, under construction in the Mysore District.

(Printed with the enclosures in extenso as Accompaniment No. 1.)

2. Unofficial note dated the 13th January 1915, by the Superintendent, Mysore Revenue Survey and Settlement, furnishing his opinion in the matter.

(Printed in extenso as Accompaniment No. 2.)

Order No. R. 9752-3—L. R. 241-14-31, dated 7th May 1915.

The benefits to be derived by wet and garden lands now depending on other sources of irrigation after they come under the new channels not being uniform, Government do not consider that it would be fair, as proposed, to levy contribution and water-rate at the same rate for all such lands. The difference between the assessment levied on lands of corresponding quality irrigated by river channels and assured of a similar supply of water and the wet assessment now levied on these lands represents the proper amount of water-rate to be levied. The Special Land Acqisitionu Officer may be requested to fix the water-rate on this basis with the approval of the Deputy Commissioner, tentatively, for a period of six years at the end of which the rates will be suitably revised by the Survey Department. This water-rate will be independent of any *extra* rate that may be charged for supply of water for sugar-cane or any other second crop for which proposals will be awaited.

2. As regards contribution, Government are pleased to direct that, in conformity with existing practice, half the rates charged on dry lands of similar quality in the neighbourhood be levied on old wet and garden lands.

ACCOMPANIMENT 1

No 7585-2, dated Bangalore, 28th December 1914, from K Doraswami Iyer, Esq , Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, General and Revenue Departments

I have the honor to forward herewith for the orders of Government, copy of letter No. 703, dated the 16th instant, together with a copy of its enclosure from the Deputy Commissioner, Mysore District, submitting with his recommendation the proposal of the Special Land Acquisition Officer, Cauvery Reservoir Works, for the levy of a uniform contribution of Rs. 30 and an extra water-rate of Rs 3 per acre on all wet and garden lands which now depend for their supply of water on tanks and kattes but which would hereafter be irrigated direct from the new channels under construction

Letter No 703, dated the 16th December 1914, from the Deputy Commissioner, Mysore District, to the Revenue Commissioner in Mysore

In submitting herewith copy of letter No 564, dated 4—5th December 1914, from the Special Land Acquisition Officer, Cauvery Reservoir Works, submitting proposals re the levy of water-rate and contribution on the old wet and garden lands commanded by the new channels, I have the honor to state that the proposal of the Special Land Acquisition Officer appears to be fair, and to request that you will be so good as to obtain the sanction of Government for the same.

Letter No 564, dated 4—5th December 1914, from the Special Land Acquisition Officer, Cauvery Reservoir Works, to the Deputy Commissioner, Mysore District

I have the honor to state that the rate of contribution leviable on the old wet and garden lands commanded by the new channels and the extra water-rate that can be reasonably imposed on such lands on account of improved source of water-supply assured to them may be taken up for consideration, as the time has arrived for obtaining mutchalikas from the holders of such lands.

The rates of contribution vary from Rs 60 to Rs 100, as regards newly irrigated dry lands These rates cannot apply to old wet and garden lands These are more or less dependent on tanks and kattes in which water is stored in small quantities during the rainy season and utilised for saving the crops when rains cease These tanks and kattes will have to be necessarily abandoned as the feeder streams will be intercepted by the new channels, if not diverted into new drains Direct irrigation from the new channels will hereafter be secured to the lands hitherto dependent on a precarious source of water-supply Such lands are usually found lightly assessed In view of the increased value that will be imparted to them by the new source of irrigation, it is reasonable as well as customary to call upon the holders to pay both the contribution and the water-rate

Mr Subba Rao, thinks that half the rates of contribution fixed on the newly irrigated lands may be levied on old wet and garden lands I would have a uniform rate of Rs 30 (which is equivalent to half the minimum rate fixed on newly irrigated lands) per acre fixed as contribution leviable on such lands If you approve of this, I request that orders may be obtained to proceed with the taking of mutchalikas from the raiyats concerned. As regards the extra water-rate to be imposed on such lands, the difference between the prevailing average wet rate under river channels in the neighbourhood and the wet assessment actually imposed on existing wet and garden lands may be adopted for guidance The rates vary, however, from village to village It may perhaps lead to invidious distinctions, if fluctuating rates be adopted I am of opinion that a uniform extra water-rate of Rs 3 per acre may be tentatively adopted, as regards such lands during the currency of the existing settlement

The question of levying a fair rate of contribution as well as a special water-rate for hot weather irrigation on old wet and garden lands to be substantially benefited by the construction of the new Mandagere Anikat and the Cauvery Reservoir, and by the repair, reconstruction and improvement of existing river channels is under investigation

Proposals will be submitted for consideration after the investigation is completed

ACCOMPANIMENT 2

Unofficial note dated the 13th January 1915, by the Superintendent, Mysore Revenue Survey and Settlement

A uniform extra rate of Rs 3 per acre is proposed to be levied on the existing wet and garden lands I find it impossible to say whether or not that will prove a good expedient The general principle to be kept in view here, that the extra demand should be equivalent to the difference between the existing wet assessment and the prospective, it becomes necessary to determine what the full rate on the improved supply is going to be, before we can say how much should be taken over and above the current rates on these lands

No. R. 9752-3—L. R. 241-14-31. DATED 7TH MAY 1915.

How is the rate on the new supply to be fixed, is the next question. As a rule the Survey Department attempts the classification and assessing of wet lands only after the irrigation has established itself in the tract concerned, the revenue officers levying till then, a water-rate which appears to them to be reasonable under existing local circumstances. The same plan could have been suggested for the lands under the Cauvery Reservoir, but it is recognised that this is an irrigation work of extraordinary importance, and special considerations have already led Government to sanction a rate of Rs. 5 an acre on the hot weather supply, as suggested by the Committee. I think that the same agency may be trusted to propose a rate reasonable under local conditions, for the supply of water from June to January. This rate may like the rate for the hot weather supply, be provisional for six years. The experience gained during the period will enable us afterwards to revise the levy to a nicety.

That old wet and garden lands are liable to pay contribution towards the cost incurred in improving the supply of water has been repeatedly laid down by Government, the last occasion on which the axiom was affirmed was when they passed orders in the case of the Belakawadi lands—No. R. 2635-8—L. R. 236-97-21, dated 15th November 1912. Unless, therefore, there be special circumstances rendering it desirable to waive contribution or to treat it as a set off; it would be right to demand it from the owners of the existing wet and garden lands whether Sircar or inam.

Mr. Krishna Rao would have a uniform rate of Rs. 30 fixed as contribution. Here also I do not see my way to agree with him. The principle in the determination of contribution is simple as stated in para 3, Government Order Camp No. 1382—90, dated 1st October 1888, and probably will not prove difficult to work out in practice. But a uniform rate is likely to injure, if too low, the interests of Government, if two high, those of the raiyat. A suitable proportion of between $\frac{1}{5}$th and $\frac{1}{3}$rd of the enhancement in the value of the lands in each village, due to better irrigation, would be a less objectionable rule to go by.

GENERAL AND REVENUE DEPARTMENTS.

Order No. R. 10103-111—L. R. 608-14-2 dated 14th May 1915.

In the last session of the Representative Assembly it was urged that, as the law relating to the rights and responsibilities of the holders of inam villages and their tenants was defective, they should be more clearly defined that facilities should be provided for the compulsory introduction of survey and settlement into inam villages, and that the individual responsibility of the co-sharers in inam villages for the payment of the quit-rent due on their shares should be enforced instead of the whole village being proceeded against for the default of a single co-sharer.

2. A bill has been introduced in the Legislative Council authorising the introduction of survey and settlement into an inam village, if not less than ¾ths of vrittidars or co-sharers agree to the measure. As the bill will only provide a partial solution of some of the difficulties brought to notice. Government consider it desirable that the whole question should be thoroughly examined from all points of view, and are therefore pleased to appoint for the purpose a committee consisting of the following gentlemen :—

1. Mr. K. Doraswami Iyer, Revenue Commissioner (President).
2. „ D. K. Darasha, Superintendent of Revenue Survey and Inam Settlement.
3. „ A. Subramanya Iyer, Deputy Commissioner, Mysore District.
4. „ P. G. D'Souza, Deputy Secretary.
5. „ K. Srinivasa Rao, Retired Deputy Commissioner.
6. „ Karnik Krishnamurti, Member of the Legislative Council.
7. „ D. Venkataramaiya, Advocate.
8. „ A. Ramanna, Advocate.
9. „ B. Narasinga Rao, Member of the Legislative Council

Some of the points for consideration are mentioned in the appended list, and the Committee is requested to consider them and any other points which in their opinion have a bearing on the subject, and furnish definite recommendations for the orders of Government before the 1st of September 1915.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. G. 17618-78—G. M. 198-14-60, dated the 24th June 1918, issuing revised rules for the management of travellers' bungalows in the State.

2. Paragraph 2 of Government Order No. G. 27910—G. M. 68-18-35, dated 14th June 1919, stating that it is unnecessary to enhance the powers of sanction of Deputy Commissioners, in respect of estimates for repairs and improvements of travellers' bungalows and that estimates costing over Rs. 250 may, as usual, be got attended to by the Public Works Department.

3. Correspondence ending with letter No. C. 4309—GI. 18-19, dated 25—28th June 1920, from the Revenue Commissioner in Mysore bringing to notice the fact that, in accordance with the existing orders of Government, the responsibility of having the travellers' bungalows properly equipped with necessary furniture rests with the Revenue Commissioner, while the Public Works Department is responsible for carrying out the necessary improvements and stating that the practice of making a common provision in the Public Works budget, both for the supply of furniture and for improvements is likely to lead to confusion and unnecessary correspondence and suggesting that separate allotment may be made, in the Revenue budget for the purchase of furniture to first and second class travellers' bungalows, out of Rs. 30,000 provided for improvements under "XXIV Civil Works" in the budget, and soliciting sanction to give enhanced powers to the Deputy Commissioners and the Revenue Commissioner for sanctioning estimates, etc., relating to improvements and repairs to travellers' bungalows, the works being carried out in the Maramat Department under the Deputy Commissioners, unless the estimates exceed Rs. 1,000 in which case, the Public Works Department may be entrusted with their execution.

4. Un-official Memo No. 7—P. W. D., dated 9th July 1920, from the Chief Engineer of Mysore, on the subject.

Order No. G. 5921-90—G. M. 72-19-47, dated 14th September 1920.

Government deem it unnecessary to provide a separate allotment for the purchase of furniture to first and second class travellers' bungalows in the Revenue budget, as the provision of Rs. 30,000 for their improvements under "XXIV Civil Works" in the current year's budget is intended both for effecting improvements and for supplying furniture, etc., and as the expenditure is at present regulated by Government. A sum of Rs. 4,069 has also been distributed among the several districts in Government Order No. G. 1707-22—G. M. 156-19-9, dated 22nd July 1920, for meeting the ordinary requirements of first and second class travellers' bungalows, in respect of furniture, crockery and contingencies during this year. The provision of Rs. 30,000 referred to above excluding the sum already spent as noted in the margin and the whole provision to be made in future budgets for improvements of first and second class travellers' bungalows will be placed at the disposal of the Revenue Commissioner, who will distribute the amount every year among the several districts for the purchase of additional furniture and for effecting improvements to them, as per details given in the statement appended to the first of the Orders read above.

	Rs.	a.	p.
For sinking a well in the Kunigal travellers' bungalow	1,256	0	0
For furniture supplied to the travellers' bungalow at Kolar	513	0	0
For furniture supplied to the additional travellers' bungalow at Tarikere	615	6	0
Total ...	2,384	6	0

2. As regards the scrutiny of estimates, paragraph 5 of the Government Order dated 24th June 1918, lays down that all petty repairs of the travellers' bungalows should be attended to in the Revenue Department under the orders of the Deputy

No. G. 5921-90—G. M. 72-19-47, DATED 14TH SEPTEMBER 1920.

Commissioner and all the special repairs should be executed by the Public Works Department on requisitions from the Deputy Commissioners. In modification of this arrangement, Government accepting the suggestion of the Revenue Commissioner are pleased to order as follows :—

(i) Deputy Commissioners to sanction all estimates for repairs and improvements up to Rs. 250 ;

(ii) Revenue Commissioner to sanction all estimates for repairs and improvements up to Rs. 1,000 ;

(iii) Estimates above Rs. 1,000 to be submitted for Government sanction through the Revenue Commissioner ;

(iv) The works to be carried out in the Maramat Department under the Deputy Commissioners, unless the estimates exceed Rs. 1,000 in which case the Public Works Department will execute the same.

3. A separate provision of Rs. 10,000 (ten thousand) should be made every year by the Public Works Department under " XXIV Civil Works in charge of Civil Officers " and placed at the disposal of the Revenue Commissioner for distribution among the Deputy Commissioners for effecting ordinary repairs to first and second class travellers' bungalows, executable by Revenue Officers. The Chief Engineer of Mysore is requested to point out the source for meeting the cost in this behalf during the current year.

4. An annual review should be submitted to Government by the Revenue Commissioner, as prescribed in paragraph 6 of Government Order of 24th June 1920 with a statement to show the state of efficiency of travellers' bungalows in each district and the steps taken to keep them up to the standard required.

Government Order No. G. 16600-52—G. M. 514-17-3, dated 4th June 1918, ordering the recognition in a suitable form, of the services of members of the Representative Assembly of 20 years' standing, and stating that lists of such gentlemen will issue from time to time as need therefor arises.

2. Letter No. 384, dated 31st July 1920, from the Huzur Secretary to His Highness the Maharaja, forwarding for disposal, a petition addressed to the Durbar Bakshi by Mr. M. Byre Gowda of Kolar, stating that he has served for more than 20 years in the Representative Assembly and praying for the grant of the privilege of "Khasa Hara" at the Palace Durbars.

Order No. G. 4933-92—R. A. 16-20-2, dated 2nd September 1920.

Government are pleased to direct that the marginally noted gentlemen who have served for more than 20 years in the Representative Assembly be granted exemption for life from the operation of the Arms Act.

1. Mr. Karnick Krishnamurthi Rao, Magadi Taluk
2. „ H. Seenappa, Hoskote Taluk.
3. „ D. Srikanta Rao, Devanhalli Taluk.
4. „ S. R. Balakrishna Rao, Shimoga Taluk.
5. „ Nadig Bhima Rao, Channagiri Taluk.
6. „ Byre Gowda, Kolar Taluk.
7. „ Hutchaviye Gowda, Gubbi Taluk

His Highness the Maharaja has been pleased to direct that these members, unless for other reasons included in a higher class, be included in Class IV in Part II of the Precedence List, issued with Government Order No. 4663-5052—G. Correspondence ending with letter No. H. C. 1036—17-18, dated 20th—22nd September 1919, from the Deputy Commissioner, Bangalore District, submitting a report regarding the working of the Vokkaligara Sangha, and stating that if it commends itself to Government, the Sangha may be given the privilege of deputing two members to the Representative Assembly.

2. Letter No. G. 10754, dated 30th November 1919, to the Deputy Commissioner, Bangalore District, directing him to inform the Secretary of the Sangha that he may renew his application for increased representation sometime in the year following.

3. Letter dated 30th June 1920, from the General Secretary, Vokkaligara Sangha, asking for permission to the Sangha deputing at least two members to the Assembly as there are 587 members on its rolls now, and as the Sangha represented the largest revenue paying community in the State and other communities like the Mahomedans were allowed to return a larger number of representatives to the Assembly.

Order No. G. 5439-40—R. A. 2-20-2, dated 7th September 1920.

The Rules as at present stand give Recognised Associations the privilege of returning one member each to the Representative Assembly and there appears to be no need to alter the Rules so as to extend this privilege by granting extra seats to individual Associations. Further, all requirements are met adequately if there is one mouth-piece only for one Association working under a common organization to represent its views and increasing the number of seats in such cases is not really necessary and may lead to inconvenience. Besides this mode of representation is not based on the numerical strength of the Association or of the community concerned. Government are not therefore prepared to grant the request of the Vokkaligara Sangha for deputing two members instead of one to the Assembly.

Reciprocal Employment of Officials of the Civil and Military Station and the City of Bangalore.

No. G. 5331-70—CEN. 9-20-3, DATED 7TH SEPTEMBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. G. 5331-70—Cen. 9-20-3, dated 7th September 1920.

The Government of His Highness the Maharaja have agreed to a proposal made by the Residency, that State officials residing in the Civil and Military Station of Bangalore may be deputed for enumeration work in the Station, and that Station officials residing in the City may be similarly employed in the City in connection with the ensuing decennial Census, 1921.

2. Heads of Departments in the City of Bangalore are requested to issue instructions to officials of their respective departments residing in the Civil and Military Station who may, without prejudice to their duties, be made available for the said work to comply with any instructions relating to the Census that may be given to them by the authorised officers in the Civil and Military Station.

3. List of such officials with particulars as noted in the margin may be submitted at once for transmission to the Residency.

Order No. 420-473—E. A. G. 419-20-6, dated 6th September 1920.

On further consideration, Government consider it desirable to add an additional rule to the rules issued with the order read above, to regulate the relations of superior officers of Government with Associations comprising their subordinate officers to whose class they do not themselves belong. They accordingly direct that the following be added as Section (vi) of Rule 29 A of the Rules of conduct of public servants.

"A superior officer should not accept office as part of the executive of, or direct the proceedings in, an Association of public servants to whose class he does not himself belong."

Government consider it necessary that Officers of Government in all Departments, on pay exceeding Rs. 100 per mensem whose mother tongue is not Kannada should have sufficient proficiency in the language of the State, *i. e.*, Kannada, and are accordingly pleased to direct as follows :—

Indian Officers of all Departments whose mother tongue is not Kannada should pass the Kannada examination prescribed for the Mysore Civil Service in the first of the orders read above.

European Officers and Officers of other Foreign nationality should pass the same examination with the exception of Kannada manuscript reading.

This rule will be applicable to all new recruits and to Officers now on probation pending confirmation. Officers already in permanent service will be exempt from the examination above prescribed if they are not required by the existing rules to pass such an examination, but they should acquire in due course a colloquial knowledge of Kannada to enable them to converse with the people with whom they come in contact during the discharge of their official duties.

2. Endorsement No. 6113, dated 19th July 1920, from the First Assistant to the Hon'ble the Resident in Mysore, forwarding letter No. 4477, dated the 2nd July 1920, from the Director of Statistics, Calcutta, regarding the desirability of transmitting the sugar-cane forecast to that Officer by the first week of February every year.

4. Un-official note No. D2. Dis. 610—Gl. 20-21, dated 2nd September 1920, from the Revenue Commissioner in Mysore.

Order No. 252-61—Stl. 3-20-4, dated 17th September 1920.

The submission of the preliminary forecast of the sugar-cane crop has been discontinued since the date of G. O. No. G. 15508-58—G. M. 635-17-1 of 17th May 1920, as it was omitted from the list contained therein of returns to be submitted to Government by the Revenue Commissioner. The Officiating Director of Statistics, Calcutta, is of opinion that the inclusion of the statistics of the sugar-cane crop of the Mysore State in the final all-India Sugarcane Forecast published by him annually, would greatly enhance its value. Government agree in this view and direct that the preliminary forecast of the sugar-cane crop be sent to him by the Statistical Branch of the Chief Secretariat on or before the 7th February of each year.

2. The Revenue Commissioner is accordingly requested to arrange to submit to Government, in future, the preliminary forecast of the sugar-cane crop by the 15th January each year. The dates by which the preliminary forecast should be submitted by the several offices to those above will be as follows : —

By the Taluk Office to the District Office	15th December.
By the District Office to the Revenue Commissioner ..	31st December.
By the Revenue Commissioner to Government	15th January.

3. The Revenue Commissioner is further requested to have the necessary addenda made in the Taluk and District Manuals.

Recorded.

2. It is very unsatisfactory that in spite of repeated instructions the Deputy Commissioners of Bangalore and Mysore delayed the submission of the return so long after it fell due.

3. In the Tumkur District one new panchayet was constituted; there has been no progress in this direction in other districts during the half year under review.

4. The Revenue Commissioner is requested to submit at an early date the special report of work actually done by the panchayets, called for in Government Order No. R. 10460-9—L. R. 14-19-6, dated 10th March 1920.

5. Government note with satisfaction that one of the tank panchayets in the Chitaldrug District is reported to have undertaken to get the maintenance work executed at a cost of Rs. 725.

6. The submission of the progress report for the half year ended 30th June 1920 which is already overdue, should be expedited.

No. R. 3762-71—L. R. 14-20-3, DATED 17TH SEPTEMBER 1920.

ANNEXURE.

Review of the Revenue Commissioner in Mysore on the progress made in the constitution of Tank Panchayets in the several Districts during the half year ended 31st December 1919.

RECORDED.

2. There was considerable delay in the submission of the returns from the Districts of Bangalore and Mysore which were received on the 18th May and 9th June 1920, respectively. It is also observed that the returns are not always carefully prepared necessitating their return for correction, etc. As a review of such belated returns serves no useful purpose, the Deputy Commissioners are requested to see that strict punctuality and due care are observed in their submission and preparation in future.

3. The appended statement shows the progress made during the period under review:—

It is reported that the number of panchayets in the Tumkur District was 59 at the beginning of the period under review and that one more panchayet was newly constituted during the half year bringing up the total to 60. The number of panchayets constituted up to date in the Kadur District is only two and not three as given in the previous return. The Deputy Commissioner reports that this error was due to the fact that the Irrigation Department wrongly reported that the Iyyankere tank which remained in their charge had been constituted into a Tank Panchayet while in fact only proposals for its constitution were under consideration. The total number of panchayets for the State therefore remained the same as in the previous half year.

Except in the Tumkur District, where one panchayet was constituted, there was no progress in this direction in any other district. The Deputy Commissioners of Kolar and Shimoga submitted however proposals in respect of one and two panchayets respectively.

Though it has been repeatedly pointed out that a report of the actual work turned out by the Tank Panchayets should invariably be forwarded along with the statement of progress for the period, none of the Deputy Commissioners except Chitaldrug have furnished information in regard to it. In this district the Tank Panchayet of Bharmasagara, Jagalur Taluk, is reported to have held a meeting on the 28th October 1919 and to have undertaken to get the maintenance work executed at a cost of Rs. 725.

2. *Personnel.*—During the year, Mr. B. T. Sitaramiah, Office Assistant to the Survey Superintendent, was transferred to the Revenue Department and Mr. S. V. Krishnaswami Iyer, District Sheristedar, Tumkur District, was appointed to the former's place. Mr. D. Srinivasa Rao, was transferred from the charge of the Field Establishment to the Headquarter Office, *vice* Mr. Y. Nanjundayya deputed for field training. The Inam Department was amalgamated with the Survey Department from the commencement of the year under report. The revised scales of pay and allowances sanctioned for the subordinate establishments of both the departments was brought into effect during the year.

3. *Resurvey.*—During the year under review, there were six Measuring Establishments (against five in the previous year) one of which was specially detailed for the resurvey of 74 villages, commanded by the Krishnarajasagara channels, under the orders of Government. In addition to the detailed survey of one inam village in the Nagamangala Taluk and miscellaneous Sub-Division work in 117 villages, resurvey measurement was completed in respect of 78,825 survey numbers measuring 604,142 acres in 661 villages distributed over an area of 944 square miles, as against 80,885 survey numbers measuring 664,217 acres in 747 villages, over an area of 1,038 square miles during the previous year. The appreciable decrease in the area covered during the year is said to be due to the difficult nature of the country dealt with, to non-co-operation on the part of raiyats due to sickness and the paucity of efficient staff for field work.

4. *Boundary Inspection.*—The number of the bandhs and stones missing were 55,067 and 121,229 against 43,131 and 121,331, respectively, in the previous year, thereby entailing considerable additional work to the field establishments. This is not satisfactory. Government regret that their repeated instructions for the efficient inspection and maintenance of boundary marks, are not followed by the several officers concerned. This should be duly noticed by the Revenue Commissioner.

5. *Classification.*—There were two establishments against one in the previous year, but one establishment worked during a portion only of the current year. Original work was carried out in eight inam villages over 519 fields covering an area of 3,441 acres against 9 villages, over 590 fields covering an area of 2,299 acres during the previous year. Reclassification of 24,516 fields with an area of 53,281 acres in 569 villages was carried out as against 36,813 fields with an area of 131,656 acres in 749 villages in the previous year. The decrease in the total output of work under this head is also said to be due to the paucity of efficient hands for field work.

6. *Resettlement.*—Proposals for the revision settlement of the three taluks of Magadi, Goribidnur and late Lakkavalli were received from the Survey Superintendent, but the same was not sanctioned during the year, as, under the new procedure, there was some delay in notifying the revised rates, for the information of the raiyats concerned. Orders will shortly issue on the proposals as also on the proposals for the revision settlement of Chikballapur, Dodballapur, Kunigal and the late Honnavalli Taluks. Additional hands are being entertained for expediting revision settlement operations in the State, generally. It has been decided to depute an Officer of the

Survey Department to Bombay to be trained in resettlement, etc., work, as also to obtain the loan of the services of an Officer of the Bombay Settlement Department, for a period of three years, to expedite the resettlement work.

7. *Inams.*—During the year, three land inams were newly confirmed. Eighteen minor land inams in Sirkar villages and one Malnad cash inam were resumed. Two whole inam villages and 17 minor inams were also revised.

8. The net expenditure of the Department during the year was Rs. 2,09,659 (against Rs. 1,84,750 for the pevious year) which, when distributed over the area covered, works out to Re. 0-5-1 against Re. 0-3-10 per acre in the previous year. The increased cost for the year is said to be due to the grant of increased fixed travelling allowance to field officers and increased pay and allowances to the subordinate establishments on the re-organisation of the Department.

9. There is a general decrease in the output of the work turned out by the Department during the year under report. With the increase pay and additional establishments recently sanctioned, Government hope for better results, during the current year.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

READ—

Government Order No. 6820-32—R. 1193, dated 22nd March 1880, sanctioning the original settlement of 444 villages of the late Lakvalli Taluk.

2. Letter No. 74, dated 27th September 1919, from the Superintendent, Revenue Survey and Settlements in Mysore, submitting proposals for the resettlement of 106 villages (including three new villages since formed) referred to in the order read above (printed as accompaniment).

3. Correspondence ending with letter No. 10, dated 12th July 1920, from the same officer, forwarding certain objection petitions presented by the concerned raiyats in respect of the revised rates proposed by him and recommending that as the said objections are not based on valid grounds, the revised rates proposed by him, which have been agreed to by the Revenue Commissioner, and Deputy Commissioner, Kadur District, may be sanctioned.

Order No. R. 3564-75—L. S. 21-19-6, dated 11th September 1920.

The proposals relate to the revision of the assessment of 106 villages which are distributed as follows :—

55	villages	in Narasimharajapura Sub-Taluk.
30	,,	in Tarikere Taluk.
14	,,	in Chikmagalur Taluk.
7	,,	in Shimoga Taluk.

2. The tract covers an area of 490 square miles and is mostly malnad in nature, being made up of numerous hills and large forests. The climate is healthy in the open tracts, the hilly portions being unhealthy. The average rainfall varies from 66 to 43 inches, the heaviest being recorded in the Jagur valley, which is notoriously unhealthy. The soil is generally poor.

3. The Tunga and the Bhadra rivers with numerous other hill streams form the chief source of water supply, though much benefit is not derived from them as the rivers are not perennial and flow on low beds. There are only 11 major and 611 minor tanks, most of which are unrestored.

4. Rice and sugar-cane of an inferior quality are the principal wet crops while there is very little dry cultivation. The gardens are said to be of an inferior kind, the principal crop raised being areca, plantains, cardamom and other spices. Coffee is also cultivated in the taluk from very early times and extends over 25,664 acres, the plantations of Jagur valley being reported to be of the best kind.

5. The taluk is fairly well off in point of roads, four new important roads having been added to the two old ones existing at the time of the original settlement. Additional facilities have been afforded by the opening of the Tarikere-Narasimharajapura Tramway which has thrown open the whole tract, except the Jagur Valley.

6. The population has been almost normal since the original settlement, being 22,457 in 1871 and 22,513 in 1911.

7. Since the original settlement there has been study improvements in the agricultural resources of the Taluk as noted in the margin. The value of land has risen while the prices of food grains also have gone up appreciably, the increases being 75 per cent in the price of rice, 25 per cent in ragi and 122 per cent in the case of supari. The Revenue history of the taluk has also been satisfactory during the current settlement. The area under occupation has increased by 3,492 acres or about 18 per cent.

8. The Survey Superintendent proposes to revise the existing rates as shown below, keeping intact the original grouping of the villages into four classes, with a slight difference in the grouping of wet and dry lands :—

Land.		Maximum rate per acre.		Average rate per acre.	
		Original.	Revised.	Original.	Revised.
		Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
Wet group	I	5 4 0	5 12 0	2 7 11	2 11 6
	II	4 12 0	5 4 0	2 4 11	2 8 10
	III	4 4 0	4 12 0	2 0 9	2 4 8
	IV	3 12 0	4 0 0	2 5 5	2 7 11
Dry	I	1 4 0	1 8 0	0 9 7	0 11 6
	II	1 0 0	1 4 0	0 6 8	0 8 7
	III	0 12 0	1 0 0	0 3 2	0 3 2
	IV	0 8 0	0 8 0	0 3 1	0 3 1
Garden	I	16 0 0	12 0 0	7 11 0	6 12 4
	II	16 0 0	12 0 0	10 0 2	9 0 4
	III	14 0 0	12 0 0	9 6 5	9 5 0
	IV	14 0 0	12 0 0	4 0 0	2 1 9
		General average.		2 2 3	2 5 4

The above proposals involve an increase of Re. 0-3-1 in the general average rate per acre and are estimated to result in the aggregate in an increase of Rs. 5,596 or 11·21 per cent over the present annual revenue.

9. The Revenue Commissioner and the Deputy Commissioner, Kadur District, are agreeable to the moderate increases proposed by the Survey Superintendent. In response to the procedure of notifying the revised rates in the areas concerned, prescribed in Government Order No. R. 5791-800—L. S. 7-18-11, dated 18th November 1919, the raiyats of Vagade, Kanur, and Hunasahalli and one or two other villages in the Kadur District, have objected to the increase in the rates on the ground of poor yield, want of road facilities, insufficient rainfall, etc. The above reasons are of too general a nature to receive any detailed consideration. The moderate character of the revised rates is borne out by the fact that only about six out of 106 villages have had any objections to urge in the matter. The rates now proposed by the Survey Superintendent are moderate ; they compare favourably with those prevailing in the adjoining tracts, and are also fully justified by the material prosperity of the taluk under the several heads detailed above, during the currency of the present settlement. Government are accordingly pleased to sanction the Survey Superintendent's proposals in their entirity.

10. The revised rates will be announced as soon as possible and brought into force from the year 1921-22 with the usual guarantee of thirty years.

No. R. 3564-75—L. S. 21-19-6, dated 11th September 1920.

Accompaniment I.

I have the honour to submit herewith proposals for revising the assessment of 106 villages of the late Lakvalli Taluk as it stood at the original settlement.

2. *Constitution.*—This taluk originally consisted of 444 villages, out of which so many as 341 villages were absorbed in the neighbouring ones, leaving a balance of 103. Three new villages were formed since the Original Settlement. There are thus 106 villages into which revision settlement has to be introduced, which are at present distributed as follows :—

1. Narasimharajapura Sub-Taluk (Koppa Taluk,)	..	55
2. Tarikere Taluk	..	30
3. Chikmagalur Taluk	..	14
4. Shimoga Taluk	..	7
		106

3. *Boundaries.*—The tract under report is bounded on the north by the late Kavalidurga (Tirthahalli) and Shimoga Taluks, on the east by Tarikere, on the south by Chikmagalur and on the west by the Koppa and the Tirthahalli Taluks.

4. *Position.*—This Taluk is an irregular quadrilateral in shape with an area of 490 square miles, roughly situated between 13°, 28′ and 13°, 43′ north latitude and between 75°, 28′ and 75°, 48′ east longitude. Broadly speaking, the Taluk of Lakvalli may be said to lie between the Bababudan Hills and Koppa.

5. *Physical features.*—With the exception of the eastern portion of the Lakvalli magani, which is comparatively open, the whole of the taluk is essentially malnad in nature. Numerous ranges of hills, continuous or isolated, and of considerable height and covered as a rule, from base to summit, with heavy jungle, are scattered throughout the length and breadth of the taluk. The well-known Jagar valley forms part of the taluk, which may be described as the crater of Chandradrona or Bababudan Hills, which almost entirely encircle it in the form of a horse-shoe with only one natural outlet near Hebbe.

6. *Forests.*—The magnificent Manna State Forest about 35 square miles in extent and abounding in valuable teak trees, lies immediately south of Lakvalli. The Kundur Amrut Mahal Kaval, with an area of nearly 16 square miles is situated close by also containing numerous jungle trees of considerable value. The forests of Lakvalli are, generally speaking, of a much heavier and unbroken character than in the taluks bordering on it on the west, the soil being deeper with less laterite. Kans or evergreen forests are also found here and there.

7. *Rivers and drainage.* The drainage of the taluk is principally effected by the Tunga and the Bhadra rivers with their numerous tributaries. The Tunga river skirts the taluk for a few miles on its north-western boundary, while the Bhadra flows through the whole length of the taluk from south to north and north-east. The Somavahini is an important affluent of the Bhadra river, which takes its rise in the Bababudan range of hills and joins it near Hebbe after draining the Jagar valley. The numerous hill-streams which are more or less perennial in nature, serve to fertilize the soil.

8. *Soils.*—The soils throughout the taluk are generally poor. The soils in the rice lands are light and friable, of a reddish colour and with a large admixture of sand. Greyish soil of a very poor description is not uncommon. Brown and dark-red soils of very fair quality, are sometimes met with in dry-crop lands. Black soil is rarely seen.

9. *Irrigation and water-supply.*—As already observed, the numerous hill-streams which abound in the taluk play an important part in irrigating the wet and garden lands. Considerable skill and ingenuity have been displayed in laying out the channels from these streams for miles together through jungle. The Tunga and the Bhadra rivers, though perennial, are not usefulf or irrigation on account of their high banks. As may be imagined, the tanks are few and far between excepting in the comparatively open portions in the extreme north-east now included in the Tarikere and Shimoga Taluks. There are 11 major and 611 minor tanks, of which only 5 major and 6 minor tanks are said to have been restored, while the remainder, *viz.*, 6 major and 605 minor tanks remain still unrestored. It may be said in this connection that the wet and garden lands in this taluk depend more upon jungle streams and rainfall for their irrigation, than upon these artificial tanks.

10. *Climate and rainfall.*—The climate varies in different parts of the taluk. It is fairly healthy in the comparatively open tract around Lakvalli in the north-east. The Jagar valley is notoriously unhealthy while the rest of the taluk may be considered fairly healthy in certain seasons of the year, and in the remaining months especially after the first rains, fevers are prevalent. There are three rain-gauge stations maintained in the tract under report, one at Narasimharajapur, another at Attigundi on the top of the Jagar valley, and the third station at Lakvalli The average quantities gauged in these stations as recorded in the latest report of the Government Meteorological Department are noted hereunder :—

1. Yedahalli or Narasimharajapura 66·60, for the last 31 years.
2. Attigundi 95·15 for the last 11 years.
3. Lakvalli 43·24 „ 7 „

Thus the heaviest fall is recorded in the Jagar valley, Yedahalli coming next, while Lakvalli on the borders of the Tarikere taluk is the last in this respect.

11. *Crops.*—There is very little dry crop cultivation in this taluk excepting in the north-east, at present included in the Tarikere and Shimoga Taluks, where ragi, gram and other cereals are grown to a limited extent.

Wet.—Rice is the prevailing wet crop in almost all parts of the taluk and sugar-cane of an inferior quality is grown in the western portion of the taluk.

Garden.—Areca or supari is the principal garden crop and the following bye-products are also grown in the irrigated gardens:—Plantain, cardamom, pepper and betel vines. The gardens of this taluk are said to be inferior to those of the malnad taluks in the west.

Coffee.—The cultivation of coffee in this taluk dates from very early times, if indeed it is not the first place into which it was introduced in Mysore. It is stated that the plant was first introduced, in about the 17th century by a Mahomedan pilgrim named Baba Budan, who on his return from Mecca brought a few berries in his wallet, and taking up his abode on the hills that now bear his name, planted them near his hut. There are at present extensive and valuable plantations in the Jagar valley, this tract being ideally adapted to the growth of coffee on account of the high elevation of the surrounding hills which give rise to numerous perennial streams, and thick shady trees, which abound in this fertile soil. The total extent under coffee is estimated to be 25,664 acres.

The following is the percentage distribution of crops in the tract under report :—

1.	Rice ..	55·20
2.	Coffee ..	37·72
3.	Ragi ..	2·43
4.	Garden produce ..	2·40
5.	Gram ..	1·50
6.	Sugar-cane ..	0·22
7.	Other food grains ..	0·20
8.	Other cereals ..	0·11
9.	Non-food ..	0·09
10.	Oil-seeds ..	0·08
11.	Condiments ..	0·05

12. *Communications.*—This taluk is now fairly well off in point of roads. There were only two roads existing at the time of the original settlement, *viz.*—

Roads.—(1) Tarikere-Koppa road, passing through the taluk from north-east to south-west.

(2) Narasimharajapura-Mundagadde road connecting with Tirthahalli and Shimoga. New roads have since been opened connecting (Yedahalli) Narasimharajapura with—

(1) Chikmagalur *via* Hebbe.
(2) Shimoga *via* Benkipur, and
(3) Bale-Honnur.

Another important road since constructed is the Chikmagalur-Bababudan road, which, together with the new road No. 1 has opened out the southern portion of the Jagar valley.

Railways.—The newly opened steam tramway connecting Narasimharajapura with Tarikere, has practically brought the whole of this taluk, excepting the Jagar valley, within an easy reach of the Madras and Southern Mahratta Railway, thereby creating additional facilities for the prompt and profitable disposal of all the surplus produce of the tract under report.

13. *Markets.*—There are no markets in this taluk which transact any appreciable quantity of export trade. A weekly fair is held at Lakvalli on Wednesday which serves for local consumption only,—where about a thousand rupees worth of commodities

are said to be bought and sold every week. The major portion of the trade in these parts is mainly conducted by itinerant merchants from South Canara who may be seen going from village to village. The large markets at Tarikere, Chikmagalur and Koppa situated within about a dozen miles from the borders of this taluk, play an important part in the trade of the tract under report.

14. *Exports.*—The principal articles of export are coffee, supari, rice, cardamoms and pepper. Coffee is exported to England, *via* Mangalore, and pounded coffee to Bangalore and Bellary. Supari is exported to Birur, Shimoga and Bellary, and rice to Kadur and Tarikere.—Cardamom is sent to Haveri for bleaching and thence exported to Calcutta.—Pepper is exported to Haveri and Birur.

15. *Imports.*—The principal articles of import are dry grains, salt, tobacco, ironware, kamblies, coriander, kerosene oil and piece-goods, mostly from Kadur, Tarikere and South Canara.

16. *Manufactures.*—There are no manufactures of any note in this taluk. Twenty-two sugar-cane mills are said to exist in the tract under report, 13 in the Narasimharajapura Sub-Taluk, 6 in Tarikere and 3 in Shimoga.

17. *Industry.*—Agriculture is the principal industry in this taluk as elsewhere in the Mysore State. Coffee cultivation is resorted to in almost all parts of the taluk and chiefly in the Jagar valley.

18. *Population.*—The population of the tract under report has almost been normal, there being no appreciable rise or fall since the original settlement.

The following is an abstract of the total population and the density per square mile during the different census years since 1871 :—

Year	Population	Density
1871	22,457	45 per square mile.
1881	23,980	49 do
1891	22,984	47 do
1901	23,264	47 do
1911	22,513	46 do

Out of a total extent of 490 square miles, the unarable or Kharab land absorbs so much as 434 square miles, leaving only 56 square miles of land actually occupied or fit for occupation. If the Kharab land is excluded, the density rises up to 402 per square mile as against 305 recorded at the original settlement. From the foregoing figures it is evident that the great famine of 1878 has not in the least affected the tract under report. On the other hand, there has been an increase of 1,523 or nearly 7 per cent in 1881 immediately after the famine. This increase may be attributed to the immigration of so many persons from the adjoining maidan taluks to the famine-free tract under report. The figures again became normal in subsequent decades.

19. *Agricultural resources.*—The following table gives an idea of the actual state of things at present as contrasted with that existing at the original settlement:—

Items	At original settlement	As per Resurvey	Increase or decrease + or —	Percentage
Houses—Tiled ..	619	859	+ 240	+ 39%
Mud-roofed ..	35	48	+ 13	+ 37%
Thatched ..	2,961	4,110	+1,149	+ 39%
Total ...	3,615	5,017	+1,402	+ 39%
Horned cattle ..	22,339	23,459	+1,120	+ 5%
Carts ..	275	820	+ 545	+198%
Ploughs ..	3,164	3,826	+ 662	+ 21%
Wells-Agricultural ..	..	1	..	..
Others ..	..	203	..	..
Total ...	...	204	+ 204	...

It will be seen that there has been a steady improvement under all the heads. The increase in the number of carts of nearly 198 per cent is noteworthy. This is the immediate effect of opening out fresh roads in this taluk.

20. *Cattle.*—Though there are at present 23,459 horned cattle as against 22,339 at the time of the original settlement, the general condition is decidedly inferior to that prevailing in the adjoining Tarikere Taluk, the breed being both small and weak.

21. *Mode of husbandry.*—There has practically been no change in the methods of agriculture followed in this taluk, as elsewhere in the malnad The old ploughs and other implements are still in vogue.

22. *Value of land.*—Statistics of sales and mortgages of land compiled from the books of the Registration Department were examined and the following is on abstract showing the total number of transactions examined, the amount fetched and the ratio the sale or mortgage money bears to the survey assessment:—

	Number of transactions	Amount fetched	Total survey assessment	Ratio
Sales	215	38,388	3,072	12
Mortgages	79	36,721	2.134	17

It will be seen from these figures that mortgages have fetched more money than the sales and the reason is not far to seek. It is only the inferior lands that are actually sold while large amounts are lent on the security of valuable garden and rice lands and hence the increased ratio of the latter

23. *Prices.*—The prices of food grains have a remarkable tendency to rise by leaps and bounds in recent years.

The following table shows the quinquennial averages of the prices of the principal articles of agricultural produce:—

Year	Quantity (seers and decimals) per rupee by the standard seer of 80 tolas							Rupees per maund			Cocoanut Rupees per 100	Remarks

No. R. 3564-75—L. S. 21-19-6, DATED 11TH SEPTEMBER 1920.

The figures quoted from the year of settlement up to 1910-11, are from the crop reports published in the Gazette as no statistics were available in the taluk for these years. There has been an increase of 75 per cent in the price of 2nd sort rice, 25 per cent in ragi and 122 per cent in supari. The current prices though somewhat abnormal, are higher still and show no tendency to fall.

24. *Wages and labour.*—The wages of labourers have also risen though not quite in proportion to the rise in prices. The railway, the tramway and the coffee plantations have caused a great demand for labour. The unskilled labourer is paid at 5 annas per day while skilled labourers are paid from 12 annas to one rupee and sometimes higher. The women and children are paid from $2\frac{1}{2}$ to 3 annas each per day.

25. *General condition of the people.*—The general condition of the people is fairly good, though education is still backward among the masses. There are signs of economic activity here and there under the auspices of the Economic Conference, but the people require a guiding hand for a long time to come. Though the indebtedness of the malnad raiyat is proverbial, the co-operative banks and societies have been doing good work in mitigating the evil. On the whole there are signs of prosperity visible all round.

26. *Re-survey.*—During re-survey 546 new numbers were formed bringing up the total number of fields to 9,945 as against 9,399 of the original survey. The following table shows at a glance the variations in extent under different heads:—

Description of land	Former survey acres	Present survey acres	Difference + or −
Arable dry crop land	10,965	10,839	−126
Rice or wet land	24,575	23,951	−624
Garden land	817	744	−73
Unarable land	2,76,909	2,77,970	+1,061
Total ..	3,13,266	3,13,505	+239

The decrease under all heads of cultivable area is due to the formation of new roads and railways and due also to the probable expansion of village sites for building cooly huts etc. The net increase in area, *viz.*, 239 acres or only ·008 per cent calls for no remarks.

27. *Re-classification.*—This taluk was re-classified under the malnad rules. The original soil classification was left untouched in the case of lands already classified at the original survey. Cultivable fields newly formed out of large Kharab numbers were classed as to soil and the revision of water classification was also effected wherever found necessary under the rules in force.

28. *Revenue history.*—Appendix A shows the history of revenue collections in the tract under report from 1887-88, the figures pertaining to the previous years not being available in the taluk. The collections of the 14 villages now included in the Chikmagalur Taluk have also been omitted from this statement, as they were not furnished by the taluk in spite of several reminders issued both to the taluk and the district authorities. The following quinquennial statement shows at a glance the fluctuations of revenue from period to period:—

It will be seen from Appendix A that there has been some remission of assessment every year since 1895-96. This is due to the liberal policy of Government cutting down a portion of the garden assessment in some of the malnad taluks of the State. The remission referred to in Appendix A pertains to the villages of the Narasimharajapura Sub-Taluk forming part of the Koppa Taluk. In other respects the collections have been steady and there are no abnormal increases or decreases calling for explanation The small increases year after year are due to the expansion of cultivation as detailed below :—

	Area as per original settlement report	Area as per revision survey	Increase or decrease	Area as per original settlement report	Area as per revision survey	Increase or decrease	
1	2	3	4	5	6	7	8

Total	20,271	23,763	+3,492	12,704	10,294	—2,410	

There is a slight fall in the extent of garden cultivation, which is more than compensated for by the increase of more than 17 per cent of wet cultivation.

No. R. 3564-75—L. S. 21-19-6, dated 11th September 1920.

29. *Grouping.*—Now coming to the immediate purpose of this report, *viz.*, the fixing of groups for purposes of revision settlement, I think there is no good reason for interfering with the old grouping. The opening of new roads has not altered the situation to any extent and the recently opened tramway also passes through the villages of the first group. I would therefore confirm the old grouping both wet and dry for purposes of the revision settlement also, and distribute the 106 villages into 4 wet groups as follows :—

I. Group marked in red—

47 villages in the centre of the taluk within an easy reach of the main road and the Tramway.

II. Group marked in yellow—

38 villages more remotely situated than the former but still enjoying to a certain extent the benefits of roads and railways.

III. Group marked in blue—

7 villages situated farther away in the interior.

IV. Group marked in green—

14 villages of the Jager valley.

As the bulk of the late Lakvalli Taluk is essentially Malnad in nature, the dry grouping must, for obvious reasons, be slightly different owing to the effect of climatic conditions on dry cultivation. The dry grouping will therefore be as follows :—

I. Group coloured pink—

23 villages of Lakvalli magani, immediately bordering upon the Tarikere Taluk—more open and better suited for dry cultivation.

II. Group coloured yellow—

36 villages not so favourable for dry cultivation but situated close to the main roads and tramway line.

III. Group coloured blue—

27 villages more remotely situated and less favourable to dry cultivation on account of excessive rainfall.

IV. Group coloured in light brown—

20 villages of the Jager valley and its immediate neighbourhood least fitted for dry cultivation.

30. *Maximum Rates.*—The late Lakvalli Taluk has adjoining to it the resettled taluks of Tarikere, Shimoga, Tirthahalli and Koppa. The Chikmagalur Taluk borders it on the south, which has not yet come up for Revision Settlement. The maximum rates sanctioned for these taluks are noted hereunder for ready reference :—

No. R. 3564-75—L. S. 21-19-6, DATED 11TH SEPTEMBER 1920.

31. On a careful consideration of all the circumstances of the tract under report and of the general rise in the prices of food grains and other commodities, I would increase the dry rates in the first three groups by 4 annas, leaving the fourth group as before. The wet rates in the first three groups may be raised by 8 annas and in the fourth group by 4 annas. These moderate increases appear to be fair and compare favourably with the rates prevailing in the adjoining groups of the neighbouring taluks.

32. *Garden Maximum.*—When remission of garden assessment was sanctioned in 1896 for the villages of the Yedahalli Sub-Taluk, the assessment on individual fields was reduced by 2 rupees. Thus even after the remission the maximum rates were 14 and 12. Consistent, however, with the liberal policy of Government in respect of malnad gardens, and to fit in with the rates already sanctioned for the adjoining taluks, I would have a uniform maximum of 12 rupees for all the groups. This rate is not only fair but equitable and errs if at all on the side of moderation.

33. The following table shows the revision rates now proposed, placed in juxtaposition with those sanctioned at the original settlement :—

Revision Maximum Rates.

	I.	II.	III.	IV.
Dry	1 8 0	1 4 0	1 0 0	0 8 0
Wet	5 12 0	5 4 0	4 12 0	4 0 0
Garden	12 0 0	12 0 0	12 0 0	12 0 0

Original Maxima.

	I.	II.	III.	IV.
Dry	1 4 0	1 0 0	0 12 0	0 8 0
Wet	5 4 0	4 12 0	4 4 0	3 12 0
Garden	16 0 0	16 0 0	14 0 0	14 0 0

34. *Results of Revision.*—Applying the proposed rates to the lands found in occupation at the time of re-survey the following results are obtained :—

Description	By former Settlement			By Revision Settlement		
	Acres	Assessment	Average rate	Acres	Assessment	Average rate
			Rs. a. p.			Rs. a. p.
Dry	5,655	2,946	0 8 4	5,455	3,446	0 10 1
Wet	16,943	40,464	2 6 3	17,601	46,074	2 9 11
Garden	696	6,461	9 4 6	707	5,987	8 7 6
Miscellaneous	..	40	..	..	..	..
Total ..	23,294	49,911	2 2 3	23,763	55,507	2 5 4

Thus the proposed revision brings in an increase of Rs. 5,596 or 11·21 per cent, to which the Government is justly entitled, the revision average rate for the whole taluk being Rs. 2-5-4 as against Rs. 2-2-3 of the Original Settlement.

The average rates of the neighbouring taluks into which Revision Settlements have been introduced, are noted hereunder for purposes of comparison :—

	Dry	Rice	Garden	Total average
	Rs. a. p.	Rs. a. p.	Rs. a. p.	Rs. a. p.
1. Tarikere	0 15 7	3 5 4	4 14 4	1 4 0
2. Shimoga	0 13 5	2 14 6	5 8 8	1 9 6
3. Tirthahalli	0 4 7	3 0 8	12 4 3	3 13 9
4. Koppa	0 5 10	2 14 6	10 10 5	4 5 4
5. Chikmagalur (original rates)	0 15 9	4 4 2	6 12 11	2 6 8

It will thus be seen that the average rates of the proposed settlement of the Lakvalli Taluk are very moderate and reasonable. It may appear at first sight that the dry

average of Re. 0-10-1 is higher than that of Tirthahalli or Koppa. It must be borne in mind that the dry cultivation in the taluk under report rather approaches that of Tarikere or Shimoga, than the purely malnad taluks of Tirthahalli and Koppa, which are similar to the 3rd or the 4th group of the Lakvalli Taluk, where the average dry rate is only Re. 0-3-2. The gardens of Lakvalli are more or less similar to those of Tirthahalli or Koppa, in point of situation, yield, or water supply. The average garden rates in Tarikere and Shimoga are necessarily low, these being purely maidan taluks, where there are numerous well gardens assessed at low rates. As Lakvalli is situated between the purely malnad taluks on one side, and the maidan taluks on the other, the average garden rate of Rs. 8-7-6 quite fits in. I need not say that the rice average of Rs. 2-9-11 is very reasonable and errs if at all on the side of moderation.

35. *Effect on Groups.*—The effect of the proposed rates on the different groups is shown in the following statement:—

	Total ...	23,294	49,911	2 2 3	23,763	55,507	2 5 4	+0 3 1	+ 9%

It will be seen that the increases are all normal. There is a fall of 9 per cent in the average garden rate, while the increases in the dry and wet rates are 21 and 10 per cent respectively. The increase of 9 per cent on the total average must be considered very reasonable and moderate when compared with the neighbouring taluks.

36. *Assessed Waste Land.*—One more financial statement is appended to show the effect of the proposed rates on assessed waste lands :—

No. R. 3564-75—L. S. 21-19-6, dated 11th September 1920.

As the statement is self-explanatory, no remarks are called for. It may however be noted that the average rates for the different descriptions of cultivation are naturally lower than those of the occupied lands.

37. *Limits of Increase.*—It will be seen that the rates of increase are well within the percentages prescribed by Government so far as the taluk and the groups are concerned. The accompanying classwar statement shows that there is an increase of 162 per cent in Wodderdebba village which requires explanation. The increase is due to mere expansion of cultivation. According to revenue accounts there are only 20 acres dry and 40 acres wet under cultivation, whereas according to re-survey there are 42 acres dry, and 114 acres wet, actually found under cultivation. Hence the apparent abnormal increase of revenue. The increases in other villages are far below the prescribed percentage.

38. *Cesses.*—The Local Fund and Irrigation cesses are separate levies under the rules in force, and thus no estimates are called for.

39. Two maps illustrative of the wet and dry groups are hereto appended as usual.

Progress Report of Village Improvement Works.

No. R. 3190-201—R. M. 5-19-71, dated 3rd September 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

Read—

Correspondence ending with letter No. C. 34'3, dated 20th July 1920, from the Revenue Commissioner in Mysore, forwarding with his review a consolidated statement showing the progress made in the working of the Village Improvement Scheme in the several districts during the quarter ending 31st December 1919.

Order No. R. 3190-201 -R. M. 5-19-71, dated 3rd September 1920.

Recorded.

2. The delay in the submission of the reports from the Bangalore, Chitaldrug and especially, Kolar Districts is not satisfactory. The reports for the next quarter should be submitted to the Revenue Commissioner forthwith, by the Deputy Commissioners.

3. The number of village committees remained the same in all districts except Kolar and Hassan, each of which shows an increase of two committees.

4. *Essential duties under the scheme.*—The work under this head was fairly satisfactory in the Bangalore, Kolar, Mysore, Hassan and Kadur Districts being stationary in the other districts, except Shimoga where there was a slight decrease.

5. The number of committees that subscribed for one or more newspapers and held weekly meetings for recreation increased in all the districts except Bangalore and Tumkur, where the number was stationary.

6. *Special Village Improvement Works.*—The number of committees that carried out special village improvement works during the quarter was 787 against 683 during the previous quarter. The cost of works carried out with Government aid was Rs. 14,134 against Rs. 9,533 in the previous quarter, the amount actually spent being Rs. 4,216 against Rs. 2,216. The value of works executed without Government aid was Rs. 84,849 against Rs. 38,307 during the previous quarter. The results achieved under this head compare favourably, with those in the previous quarter. Attention should however be paid to the several defects noticed by the Revenue Commissioner in para 7 of his review.

7. *Cart-tracks.*—The total length newly opened or improved was 319 miles against 220 miles in the previous quarter, the work in the Shimoga District being the best in this respect.

8. *Village common fund.*—A sum of Rs. 5,396 was collected during the quarter (against Rs. 5,692 in the previous quarter) the major portion Rs. 4,058, being from the Hassan District.

9. The following Amildars are reported to have done good work during the quarter:—

1. Mr. Narasimha Naik, Heggaddevankote Taluk.
2. ,, Hyder Ali Khan, Mysore ,,
3. ,, S. Narayan Rao, Tirthahalli ,,
4. ,, V. Dwarakanath, Honnali ,,

10. A statement showing the work done during the quarter under the several heads is appended to this order.

GENERAL AND REVENUE DEPARTMENTS

READ—

Correspondence ending with letter No. C. 630, dated the 10th August 1920, from the Revenue Commissioner in Mysore, reporting that owing to inadvertance in his office, no action was taken in the matter of holding the Fifth Quinquennial Cattle Census in the State, which was ordered to be held between December 1919 and April 1920 and suggesting that the said Census may be held along with the General Census in the State, as was done in 1911.

2. Correspondence ending with letter No. 1303—F. 94, dated the 9th September 1920, from the Census Superintendent in Mysore, stating that there is no objection to hold the Cattle Census along with the General Census in 1921 and requesting that necessary modifications (with an additional column for "pigs") may be made in the Schedules prescribed for the previous Cattle Census of 1915-16, so as to embody all the information required for the preparation of the consolidated returns required by the Director of Statistics in India; also suggesting that a provision of Rs. 6,000 may be made for meeting the cost of the Census.

Order No. R. 4140-99—R. M. 7-20-9, dated 22nd September 1920.

Government are pleased to direct that the Fifth Quinquennial Census of the Argicultural Stock in Mysore, be taken along with the ensuing Preliminary General Census, so that the enumerators and supervisors employed for the General Census may be available for this work also, thereby, securing without much additional cost, more correct statistics than could be collected through the ordinary village agency.

2. The Revenue Commissioner is requested to take prompt steps, in consultation with the Census Superintendent, for effecting the necessary modifications in the Schedule referred to above, a copy of the revised return being submitted for the approval of Government.

3. As the present Cattle Census is to be held with the General Census, Government do not consider it necessary to provide a sum of Rs. 6,000 for meeting the cost of the Census. The Revenue Commissioner is requested to submit proposals in the matter of providing the amount required for the purpose.

4. The accompanying instructions are issued for the guidance of the Deputy Commissioners, who will do well to be guided by the previous Cattle Census.

No. R. 4140-99—R. M. 7-20-9, DATED 22ND SEPTEMBER 1920.

INSTRUCTIONS.

1. The most favourable time for cattle enumeration should be about a week before the preliminary enumeration of the General Census begins. The Deputy Commissioners should select a day in that month when people and stock are most likely to be in the villages to which they belong. Market days and days of fairs and festivals at which people would be absent in large numbers from their homes should be avoided. The precise days selected should be locally notified to enable people to arrange to remain with their stock in their respective places as much as possible, and should also be reported to the Census Superintendent direct to avoid delay.

2. The cattle enumeration should be as nearly as possible simultaneous in all villages and towns and the enumerators employed for the General Preliminary Census should carry out this work in their respective blocks with great care and attention, guided by their supervisors and Charge Superintendents.

3. A cattle enumerator's block should be the same as that intended for the General Census and the enumerator appointed for the General Census will also be the enumerator for this purpose.

4. With the aid of his Block List (General Census Form No. 4) with which each enumerator is supplied, he should thoroughly acquaint himself with all the tenements which he has to visit in ample time before the days fixed for the cattle enumeration. Errors and omissions, however, should be carefully checked and brought to the notice of the supervisor for correction in the course of this preliminary survey of his block.

5. Each cattle enumerator should also be supplied with a sufficient number of cattle schedule sheets and instruction notes in which to make entries at cattle enumeration. Each block, whether comprising an entire village or a separate portion of a town or village, should have a separate cattle schedule for itself. This will facilitate the arrangement of cattle schedules according to villages after enumeration.

6. The Superintendent, Government Printing, is requested to arrange for the issue of the printed forms (under approval) of these Cattle Schedules on the indents of the Deputy Commissioners of Districts and in consultation with the Census Superintendent in Mysore.

7. *Instructions to enumerators.*—On the day fixed for cattle enumeration, the enumerator attended by the patel and a few of the principal inhabitants of his block should visit every tenement according to the Block List and make entries in the cattle schedule on the spot with neatness and precision. The particulars relating to each tenement should be entered after enquiry of the head member thereof. The work should be done between sunrise and sunset. As the information required is essentially statistical, there will, as a rule, be no disinclination to furnish full and correct information, and in any case there will be no difficulty which cannot be overcome provided enumerators deport themselves which civility and sense. The necessity and importance of such deportment should be impressed upon all of them.

8. An enumerator should enter the figures relating to the agricultural stock permanently occupying the premises visited. Those temporarily absent should not be omitted, nor need such as are casually present be reckoned as appertaining to the premises in question. In this way, while it will be necessary for an enumerator to visit all pens and folds outside the "Gavtan," it will not be necessary to count carts and bullocks in transit on public roads, etc.

9. Herds of cattle belonging to cattle-breeders which may be in kavals difficult of access need not be counted in the kavals themselves; it will be sufficient to ascertain their particulars from the respective owners and to enter the same opposite their names with a remark to that effect in the cattle schedule. In the case of persons like coffee planters who live or have their stock on their estates in the malnad, cattle schedule sheets may be previously sent to them to be filled in by them on the day fixed for the cattle enumeration and returned to enumerator personally when he visits such places.

10. Statistics relating to the Amrut Mahal cattle, the Palace cattle and the animals at the Kunigal Stud Farm should be similarly ascertained from the departmental officers by the Amildars concerned and added up to the totals of the localities where they are at the time of the Cattle Census.

11. When the details for all the houses in an enumerator's block are thus fully written up, the figures in every column should be totalled up and the cattle schedules should be signed by the enumerator and the patel and attested also by the local residents who may have helped them. The cattle schedules should then be handed over to the circle supervisors appointed by the Deputy Commissioners for the purpose of the General Census.

12. *Instructions to supervisors.*—The supervisors should, on receipt of the cattle schedules filled in by the enumerators of their circles, verify from 5 to 10 per cent of the entries in the cattle schedules relating to all the blocks in their circles and generally supervise the arrangements made for enumeration in their circles.

13. The items in the cattle schedules to be verified by supervisors should be previously but privately prescribed by the Amildar of the taluk by indicating the items to be verified. Thus, an Amildar may direct that every fourth item from the 3rd (*i.e.*, 7th, 11th and 15th) or every 5th item from the second (*i.e.*, 7th and 12th) in the cattle schedule should be verified by supervisors. The verification should be made by house-to-house visit, in the same manner as the enumeration. The attendance of the cattle enumerator, the patel and a few of the principal inhabitants of the block should also be secured. All errors discovered in the course of such verification should be neatly corrected with red ink and a list of them appended at foot of the cattle schedule. Where the errors are small and of no great significance, the cattle schedule may be passed for adoption. But where the errors are serious or numerous and thus calculated to discredit the cattle schedule as a whole, the case should be reported at once to the Charge Superintendent (Amildar) with a view to that officer taking due notice of the enumerator's default and arranging for a prompt and correct re-enumeration.

14. After such verification the supervisor should carefully verify the totals in each schedule and attest the same with his own signature and those of the village patel and the principal inhabitants who may have been with him in the course of his house-to-house visits.

15. Thus verified and attested, the cattle schedules should be put together villagewar with pages numbered and handed over to the Charge Superintendent, an abstract of the cattle schedule being given to the village shanbhog for guidance in posting up the village Khaneshmari account.

16. The Charge Superintendents should then make an abstract of the information collected for their charges in the schedule form and submit the same to the Deputy Commissioners, who will compile the figures for their respective districts talukwar and forward the same to the Revenue Commissioner as soon as possible, say by the 1st February.

17. These schedules with the village abstract as facing sheet will constitute the Khaneshmari account of the village and form the basis of the return from which Agricultural Return, Table A 4 will be prepared. The account will run for the entire quinquennium and be liable to further scrutiny by the taluk and jamabandi officers with a view to improving the next enumeration.

18. The foregoing instructions are intended only as a general outline of what is desired. Deputy Commissioners will issue instructions in such further detail as they may find necessary.

19. It will be noted that the Cattle Census now ordered extends both to Sirkar and Inam villages and not to Sirkar villages only.

20. Deputy Commissioners should lose no time in starting their preparations and in submitting the report of the arrangements they make and soliciting such further instructions as they may find necessary.

No. R. 4140-99—R. M. 7-20-9, DATED 22ND SEPTEMBER 1920.

Instructions to Enumerators and Supervisors regarding the collection of the statistics pertaining to the Agricultural Census in Mysore to be held in January 1921.

1921ನೇ ಇಸವಿ ಜನವರಿ ಮಾಹೆಯಲ್ಲಿ ನಡೆಯತಕ್ಕ ಜಾನುವಾರು ಖಾನೇಷುಮಾರಿ ವಿಷಯವಾಗಿ ಎಣಿಕೆದಾರರಿಗೂ ಮತ್ತು ಸೂಪರ್‌ವೈಜರುಗಳಿಗೂ ಕೊಡಲ್ಪಟ್ಟ ತಿಳುವಳಿಕೆ ಅಂಶಗಳು.

1. Each block whether comprising an entire village or separate portion of a town or village should have a separate cattle schedule for itself. This will facilitate the re-arrangement of schedules according to villages after enumeration.

1. ಪ್ರತಿಬಂದು ತುಕಡಿಗೂ ಸದರಿ ತುಕಡಿಯು ಇಡೀ ಗ್ರಾಮವಾಗಲೀ ಯಾ ವಿಂಗಡಿಸಲ್ಪಟ್ಟ ಪ್ರತ್ಯೇಕ ಗ್ರಾಮ ಭಾಗವಾಗಲೀ ಬೇರೆ ಬೇರೆ ಜಾನುವಾರು ಪೆಡ್ಯೂಲು ಹಾಳೆಗಳನ್ನು ಉಪಯೋಗಿಸಬೇಕು. ಹೀಗೆ ಮಾಡುವದರಿಂದ ಎಣಿಕೆಯಾದ ನಂತರ ಪೆಡ್ಯೂಲುಗಳನ್ನು ಗ್ರಾಮವಾರು ವಿಂಗಡಿಸುವದಕ್ಕೆ ಸಾಲಭ್ಯ ಉಂಟಾಗುತ್ತದೆ.

2. These cattle schedules are made up of sheets of paper printed with the form prescribed therefor with spaces provided for each item of information to be collected and will be supplied to every enumerator by the Charge Superintendent. This special census is not only applicable to Sirkar villages but also to the Inam villages in the Province.

2. ಸದರಿ ಜಾನುವಾರು ಪೆಡ್ಯೂಲುಗಳು ನೇಮಿತವಾದ ಕಿರ್ನಾವಳಿಗಳೊಂದಿಗೆ ಅಚ್ಚು ಹಾಕಲ್ಪಟ್ಟ ಬಿಡಿ ಬಿಡಿ ಹಾಳೆಗಳಾಗಿರುತ್ತದೆ ಮತ್ತು ಸಂಗ್ರಹಿಸಬೇಕಾದ ಪ್ರತಿಬಂದು ವಿಷಯಕ್ಕೂ ಆಯಾಯ ಕಿರ್ನಾವಳಿಗಳಲ್ಲಿ ತಕ್ಕಷ್ಟು ಜಾಗವನ್ನು ಬಿಟ್ಟಿರುತ್ತದೆ. ಇವುಗಳು ಪ್ರತಿಯೊಬ್ಬ ಎಣಿಕೆದಾರನಿಗೂ ಚಾರ್ಜ್ ಸೂಪರಿಂಟೆಂಡಂಟರಿಂದ ಸರಬರಾಯಿ ಮಾಡಲ್ಪಡುತ್ತವೆ. ಈ ಸ್ಪೆಷಲ್ ಸೆನಸಸ್ಸು ಪ್ರಾವಿನ್ಸಿನ ಇಮಳಿ ಸರಕಾರಿ ಗ್ರಾಮಗಳಿಗೆ ಮಾತ್ರವೇ ಅಲ್ಲದೆ ಇನಾಮು ಗ್ರಾಮಗಳಿಗೂ ಲಾಗಾವಾಗುತ್ತದೆ.

3. On the day fixed for cattle enumeration the enumerator attended by the patel and a few of the principal inhabitants of his block should visit every tenement according to the Block List and make entries in the cattle schedule on the spot with neatness and precision. The particulars relating to each tenement should be entered after enquiry of the head member thereof. The work should be done between sunrise and sunset. The enumerators should deport themselves with due civility and sense.

3. ಜಾನುವಾರು ಎಣಿಕೆಗೆ ಗೊತ್ತುಮಾಡಿದ ದಿನದಲ್ಲಿ ಎಣಿಕೆದಾರನು ಪಟೇಲ ಮತ್ತು ತನ್ನ ತುಕಡಿಯ ಮುಖ್ಯಸ್ಥರಾದ ಕೆಲವು ಗ್ರಾಮಸ್ಥರೊಂದಿಗೆ ತುಕಡಿ ಪಟ್ಟಿಯನ್ನು ಅನುಸರಿಸಿ ಪ್ರತಿಯೊಂದು ಮನೆಗೂ ಹೋಗಿ ಜಾನುವಾರು ಪೆಡ್ಯೂಲಿನ ಆಯಾಯ ಕಲಂಗಳಲ್ಲಿ ಆಯಾಯ ಮನೆಗಳಿಗೆ ಸಂಬಂಧಪಟ್ಟ ತಪಶೀಲನ್ನು ಚೆತ್ತುವಗೈರೆ ಇಲ್ಲದೆಯೂ ಖರಾರುವಾಕ್ಕಾಗಿಯೂ ಅದೇ ಪ್ರದೇಶದಲ್ಲಿಯೇ ಬರೆದುಕೊಳ್ಳಬೇಕು. ಸದರಿ ತಪಶೀಲುಗಳನ್ನು ಆಯಾಯ ಮನೆಯ ಯಜಮಾನರನ್ನು ವಿಚಾರಿಸಿ ತಿಳಿದುಕೊಳ್ಳಬೇಕು. ಈ ಖಾನೇಷುಮಾರಿ ಕೆಲಸವನ್ನು ಸೂರ್ಯೋದಯಾರಭ್ಯ ಸೂರ್ಯಾಸ್ತಮಯದೊಳಗಾಗಿ ನಡಿಸಬೇಕು. ಎಣಿಕೆದಾರರು ಈ ಕೆಲಸವನ್ನು ತಕ್ಕ ನಯದಿಂದಲೂ ವಿವೇಕದಿಂದಲೂ ನಡಿಸಬೇಕು.

4. An enumerator should enter the figures relating to the Agricultural Stock habitually occupying the premises visited. Those temporarily absent should not be omitted, nor need such as are casually present be reckoned as appertaining to the premises in question. In this way, while it will be necessary for an enumerator to visit all pens and folds outside the "Gavtan" it will not be necessary to count carts and bullocks in transit on public roads, etc.

4. ಎಣಿಕೆದಾರನು ಆಯಾಯ ಪಶಾರದಲ್ಲಿ ವಾಡಿಕೆಯಾಗಿರತಕ್ಕ ಜಾನುವಾರು ತಪಶೀಲುಗಳನ್ನು ಮಾತ್ರ ನಮೂದು ಮಾಡಬೇಕು. ಹಂಗಾಮಿಯಾಗಿ ಗೈರುಹಾಜರಾಗುವ ಜಾನುವಾರುಗಳನ್ನು ನಮೂದು ಮಾಡದೆ ಬಿಡಬಾರದು. ಮತ್ತು ಆಕಸ್ಮಾತ್ತಾಗಿ ಬಂದಿರುವ ಜಾನುವಾರುಗಳನ್ನು ಲೆಕ್ಕಿಸಲು ಅವಶ್ಯಕವಿಲ್ಲ. ಎಣಿಕೆದಾರನು ಈರೀತ್ಯಾ ಗ್ರಾಮನಿವೇಶನದ ಹೊರಗೆಯಿರುವ ಎಲ್ಲಾ ರೊಪ್ಪ ಮತ್ತು ಕೊಟ್ಟಿಗೆಗಳನ್ನೂ ಹೋಗಿ ನೋಡಿ ಅಲ್ಲಿರತಕ್ಕ ಜಾನುವಾರು ಸಂಖ್ಯೆಯನ್ನು ಲೆಖ್ಖದಲ್ಲಿ ದಾಖಲ್ ಮಾಡಬೇಕು. ಹೀಗೆ ಮಾಡುವದರಿಂದ ಪಬ್ಲಿಕ್ ರಸ್ತೆವಗ್ಯೈರೆಗಳಲ್ಲಿ ಚಲನೆಯಲ್ಲಿರತಕ್ಕ ಗಾಡಿಗಳನ್ನೂ, ಎತ್ತುಗಳನ್ನೂ ಎಣಿಕೆ ಮಾಡಬೇಕಾದ ಪ್ರಕೃತ ವಿರುವದಿಲ್ಲ.

6. In the case of persons like Coffee Planters who live or have their stock on their estate in the Malnad, cattle schedule sheets may be previously sent to them by the Amildars to be filled in by them on the day fixed for the enumeration and returned to the enumerator personally when he visits such places.

6. ಮಲನಾಡಿನಲ್ಲಿ ತಮ್ಮ ಯಸ್ಟೇಟುಗಳಲ್ಲಿ ವಾಸಮಾಡುವ ಅಥವಾ ತಮ್ಮ ಜಾನುವಾರುಗಳನ್ನ ಇಟ್ಟಿರುವ ಕಾಫಿ ಪ್ಲಾಂಟರ್ ವಗೈರೆ ಯಜಮಾನರಿಗೆ ಅಮಲ್‌ದಾರ್ರು ಜಾನುವಾರು ಪೆಡ್ಯೂಲುಗಳ ಹಾಳಿಗೆಗಳನ್ನು ಮೊದಲೇ ಕಳುಹಿಸಬೇಕು. ಅವರುಗಳು ಎಣಿಕೆಗೆ ಗೊತ್ತು ಮಾಡಿದ ದಿನದಲ್ಲಿ ಸದರಿ ಪೆಡ್ಯೂಲುಗಳನ್ನ ಭರ್ತಿ ಮಾಡಿ ಎಣಿಕೆದಾರನು ಅಂಥಾ ಸ್ಥಳಕ್ಕೆ ಹೋದಾಗ ಆತನ ಪಕ್ಕಕ್ಕೆ ಖುದ್ದು ಕೊಡಬೇಕು.

7. Statistics relating to the Amrut Mahal cattle, the Palace cattle and the animals at the Kunigal Stud Farm should be similarly ascertained from the Departmental officers by the Amildars concerned and added up to the taluk total.

7. ಹೀಗೆಯೇ ಅಮೃತ ಮಹಲ್ ಮತ್ತು ಅರಮನೆ ದನಗಳು ಮತ್ತು ಕುಣಿಗಲ್ ಸ್ಟಡ್ ಫಾರಂಮ್ಮಿನ ಜಾನುವಾರುಗಳು ಇವುಗಳ ಲೆಕ್ಕವನ್ನು ಅಮಲ್ದಾರ್ರು ಆಯಾಯ ಇಲಾಖೆಯ ಅಧಿಕಾರಿಗಳಿಂದ ತಿಳಿದುಕೊಂಡು ತಾಲ್ಲೂಕಿನ ಜಮ್ಲಾಕ್ಕೆ ಕೂಡಿಸಬೇಕು.

8. When the details for all the houses in an enumerator's block are thus fully written up, the figures in every column should be totalled up and the cattle schedule should be signed by the enumerator and the patel and attested also by the local residents who may have helped them. The cattle schedules should then be handed over to the circle supervisors appointed by the Deputy Commissioners for purposes of General Census.

8. ಈ ರೀತಿಯಲ್ಲಿ ಎಣಿಕೆದಾರನು ತನ್ನ ತುಕಡಿಗೆ ಸೇರಿದ ಎಲ್ಲಾ ಮನೆಗಳ ತಪಶೀಲುಗಳನ್ನು ಪೂರ್ತಿಯಾಗಿ ಬರೆದನಂತರ ಪ್ರತಿಯೊಂದು ಕಲಮಿನ ಅಂಕಿಗಳ ತೇರೀಜನ್ನ ಆಕ್ಷೇರು ಜುಮ್ಲಾ ಕಲಮಿನಲ್ಲಿ ಬರೆದು ಸದರಿ ಎಣಿಕೆದಾರನು ಮತ್ತು ಪಟೇಲ್ ಮತ್ತು ಇವರಿಗೆ ಸಹಾಯಕರಾಗಿದ್ದ ಗ್ರಾಮಸ್ಥರು ಸಹ ಜಾನುವಾರು ಪೆಡ್ಯೂಲಿಗೆ ರುಜು ಮಾಡಿ ಅದನ್ನ ಡೆಪ್ಯುಟಿ ಕಮಿಷನರವರುಗಳಿಂದ ಜನರಲ್ ಸೆನ್ಸಸ್ ಬಗ್ಗೆ ನೇಮಿಸಲ್ಪಟ್ಟ ಸರ್ಕಲ್ ಸೂಪರ್‌ವೈಜರುಗಳ ಪಕ್ಕಕ್ಕೆ ಕೊಡಬೇಕು.

10. The supervisors should verify the items in the cattle schedule previously indicated by the Charge Superintendent. The verification should be made by house-to-house visit in the same manner as the enumeration. The attendance of the enumerator, the patel and a few of the principal inhabitants of the block should also be secured. All errors discovered in the course of such verification should be neatly corrected with red ink and a list of them appended at foot of the cattle schedule. Where the errors are small, and of no great significance, the cattle schedule may be passed for adoption. But where the errors are serious or numerous and thus calculated to discredit the cattle schedule as a whole, the case should at once be reported to the Charge Superintendent (Amildar), with a view to that officer taking

12. Thus verified and attested, the cattle schedules should be put together villagewar with pages numbered, and with the village abstract handed over to the Charge Superintendent.

12. ಹೀಗೆ ನೀಪುರ್ತಾ ಮಾಡಿ ರುಜು ಮಾಡಲ್ಪಟ್ಟ ಜಾನುವಾರು ಷೆಡ್ಯೂಲುಗಳನ್ನೂ ಗ್ರಾಮವಾರ್ ಹಾಳೆಗಳನ್ನೂ ಜೋಡಿಸಿ ಪುಟ ಸಂಖೆಯನ್ನು ಹಾಕಿ ಹೊಲಿದು ಗ್ರಾಮದ ಗೋಷ್ಪಾರೆಯನ್ನು ದಾಖಲ್ಮಾಡಿ ಛಾರ್ಜ್ ಸೂಪರಿಟೆಂಡೆಂಟರವರಿಗೆ ಕೊಡಬೇಕು.

Progress Report on Village Improvement Works.

No. R. 4538-49—R. M. 2-20-19, DATED 29TH SEPTEMBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS

READ—

Letter No. C. 34-3, dated the 3rd September 1920, from the Revenue Commissioner in Mysore, forwarding with his review a consolidated statement showing the progress made in the working of the Village Improvement Scheme in the several districts, during the quarter ending 31st March 1920.

Order No. R. 4538-49—R. M. 2-20-19, dated 29th September 1920.

Recorded.

2. Eight new Committees were formed in Kolar and two were wound up in Hassan. The number of Committees in the other districts remained stationary.

3. *Essential duties under the scheme.*—Save in Mysore, Kolar and Tumkur Districts, where this work was moderately satisfactory, the work under weekly communal labour, subscriptions to newspapers and weekly meetings was generally very poor and disappointing.

4. *Special village improvement works.*—During the quarter, 648 Committees carried out special village improvement works as against 787 during the previous quarter. The cost of works carried out with Government aid was Rs. 22,975 against Rs. 14,134 in the previous quarter, the amount actually spent being Rs. 6,018 against Rs. 4,216. The value of works executed without Government aid was Rs. 50,342 against Rs. 84,849 during the previous quarter. The contribution by villagers is poor in the districts of Hassan, Tumkur and Chitaldrug, while in Kadur District, there has been no contribution at all. A more active and systematic programme of work should be adopted in all the districts for the proper utilization of the allotments made for the several districts.

5. The length of cart-tracks newly opened or improved was 237 miles against 317 miles in the previous quarter.

6. A sum of Rs. 5,927 was collected towards the Village Common Fund (against Rs. 5,396) during the previous quarter, the major portion Rs. 3,425 being collected in the Hassan District.

7. The following Amildars are reported to have done good work under the scheme during the quarter:—

Name	Taluk
1. Mr. Hyder Ali Khan	Mysore.
2. „ L. S. Rego	Krishnarajapete.
3. „ V. Dwarkanath	Honnali.
4. „ A. Seshadri Iyengar	Kumsi (Sub-Taluk.)
5. „ K. Lingopanth Badami	Kadur.

8. A statement showing the work done during the quarter is appended to this order.

Government Order No. R. 95-105—L. R. 15-15-217, dated 3rd July 1916, sanctioning, among other things, the scales of pay of clerks attending to the Village Improvement work in the offices of the Deputy Commissioners of the several districts as shown below:—

1. Bangalore, Mysore and Shimoga .. One clerk on Rs. 25 per mensem each.
2. Kolar and Tumkur .. One clerk on Rs. 20 per mensem each.
3. Hassan, Kadur and Chitaldrug .. One clerk on Rs. 15 do

2. Government Order No. R. 7337-9—R. M. 4-18-48, dated 13th December 1918, raising the pay of the temporary clerks in Taluk Offices attending to Village Improvement and Economic Conference works from Rs. 15 to Rs. 20 per mensem.

3. Letter No. C. 418.— Gl 20-21, dated 5—9th August 1920, from the Revenue Commissioner in Mysore, recommending, at the instance of the Deputy Commissioner, Hassan District, that the pay of the Village Improvement clerks of all the District offices may be fixed at Rs. 25 per mensem as the pay of the Village Improvement clerks in Taluk Offices has been raised from Rs. 15 to Rs. 20, and as it has not been possible to secure competent men for the appointment, owing to the inadequacy of the pay.

Order No. R. 4210-20—R. M. 2-20-17, dated 23rd—30th September 1920.

The recommendation of the Revenue Commissioner is sanctioned. The extra cost involved will be met from the Village Improvement Grant.

Government Notification No. R. 5804—Ft. 53-13-9, dated 5th January 1915, issuing the rules for the management of village forests.

2. Letter No. C. 349, dated 19th March 1920, from the Revenue Commissioner in Mysore, stating that under Rule 19 of the above Rules all realisations from the sale of grass and other forest produce have to be deposited in the Government Savings Bank in the name of the Panchayet and that great inconvenience is felt by the Panchayetdars in conducting transactions at the Treasury, and recommending that, under the circumstances, Rule 19 may be modified so as to permit the Village Forest Panchayets to deposit their realisations which are necessarily small in Village Co-operative Societies.

3. Letter No. 1337, dated 30th June 1920, from the Registrar of Co-operative Societies in Mysore, stating that there is no objection to such funds being deposited in Local Co-operative Societies unless the amounts are very large and adequate provision is not available in the Societies for the safe custody of the cash.

Order No. R. 3455-66—Ft. 150-19-6, dated 8th September 1920.

Government consider that there is some force in the Revenue Commissioner's recommendation and therefore direct that a provision as below be added to Rule 19 of the said Rules.

"Provided, however, that it shall be competent to the Deputy Commissioner to authorise the Panchayet to place its funds in local Co-operative Society in cases where the taluk headquarters is more than five miles distant from the village and the amount is less than Rs. 100."

CONCESSIONS.

The villagers of Narasagondanahalli Arakere, Kotemallur, Chickgonigere and Hiregonigere will be given thorns etc., for fencing purposes at half rates on licenses to be obtained from the Forest Department.

SCHEDULE B.

District	Taluk	Approximate area	Name of block	Boundaries
Shimoga	Honnali	A. G. 346 39 or ·54 square miles	Arakere (B)	*North.*—Starting from the north-west corner of survey No. 16 of Narasagondanahalli, the line runs north-east along the common boundary between the said village and Koppa (of Davangere Taluk) to the north-east corner of survey No. 16 of Narasagondanahalli. *East.*—Then the line runs south-east and south-west along the common boundary between Narasagondanahalli and Koppa of Davangere Taluk, to the tri-junction bhands of the said two villages with Taraganahalli. *South.*—Then the line runs south-west for about 37 chains along the common boundary between Narasagondanahalli and Taraganahalli to a point about 23 chains south-east from the south-east corner of survey No. 105 of Arakere. *West.*—Then the line runs slightly north-east for about 26 chains through survey No. 17 of Narasagondanahalli to a point on the high road leading from Honnali to Harihar about 18 chains south-east from the north-east corner of survey No. 105 of Arakere; then along the said high road through survey Nos. 17 and 16 of Narasagondanahalli to the starting point.

No. G. 4246—19-20, dated 11th-18th August 1920, from K. R. Srinivasiengar, Esq., M.A., Revenue Commissioner in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Revenue Department.

In forwarding herewith the records relating to the final settlement of Arakere forest blocks A. and B., Honnali Taluk, received with Forest Settlement Officer's letter No. 443, dated 16th March 1920 through the Deputy Commissioner, Shimoga District, I have the honour to state as follows:—

2. Block A as finally settled covers an approximate area of 2·26 square miles and block B an approximate area of ·54 square miles. The settlement of the blocks was completed by Mr. Chokkanna on 15th September 1919.

3. It is reported that no appeals have been preferred to the Deputy Commissioner, Shimoga, against the Forest Settlement Officer's decisions.

4. The Conservator of Forests who was consulted has agreed to the settlement effected by the Forest Settlement Officer.

5. Under the circumstances, the settlement effected by the Forest Settlement Officer may be approved and the final Notifications under Section 17 ordered to be issued.

No. R. 3361-4—Ft. 57-20-2, dated 7th September 1920.

1	Gidda Honnappa, Patel of Narasagondanahalli on behalf of the villagers noted below :— (1) Suthkote Hanumappa. (2) Ratnahalli Hanumappa. (3) Suthkote Kenchappa.	16-9-19	He prays that Survey No. 16 and part of 17 may be exclusively left to the villagers as usual without including them in the proposed reserve ; (2) and also prays free grazing may be allowed.	...	The village contains 445 cattle, 120 acres of Survey No. 17 have been left at present and this may be supplemented as proposed.	This block was notified by Government on the 10th May 1918 and referred here for settlement. From the records it will be seen that the Revenue Commissioner was of opinion that more grazing ground ought to be allowed for the cattle of the villages concerned than the District Forest Officer's proposal conceded. With this recommendation in view I have decided as below :— The proposal is to constitute Survey No. 16 and part of 17 south thereof into a sub-block as the hills in the area offered a chance for forest growth and sandal. The Patel as spokesman for the villagers was against any reservation at all. They cannot see that afforestation is beneficial to them in more ways than one. They are jealous of the transgressions against their time-honoured enjoyments The village has only 445 animals all told, and must do with 120 and odd acres. I allow it after deciding to constitute the whole of the 1st No. 16 and the part of 17 north of the line joining the point at the bend of the Honnali-Haribai road opposite the bandhs on the east face of Survey No. 16 of Arakere about 21 chains south-east of its north-east corner with the bandhs in the bend of Survey No. 17 about 37 chains south-west of the eastern junction bandhs of Survey Nos. 16 and 17 Narasagondanahalli (*vide* Sketch). This gives about 58 acres to the reserve in the latter number. (The figures furnished in the Forest Officer's proposal are apparently wrong). The village will get its thorns, etc., at half rates on license obtained from the Forest Department.	
2	Basappa, son of Sannegowda of Arakere on behalf of the villagers noted below :— (1) Veeesappa. (2) Pujari Veerappa. (3) Nagappa. (4) Siddappa. (5) Iswarappa (6) Basappa.	15-9-19	Represents :— (1) that if Survey No. 103 is included in the reserve, the villagers will neither have gomal nor "hullubanni" right. (2) that he saw the sketch showing the area marked off for their use. (3) that this is not ample as there are over 2,000 cattle in the village and prays that the whole of Survey No. 103 may be left for their use.	...	This village has got 1,209 cattle all told. Two hundred and twenty acres of Survey No. 103 have been left. As this will not suffice for their cattle calculating at the rate of 30 acres per 100 head of cattle a corresponding portion from Survey No. 103 may be detached and given out to the villagers for grazing purposes.	Survey No 104 of this village has already formed part of the Mallandur State Forest. It is now under contemplation to take up the remaining hills and include them in this block. The villagers were against any reservation at all. They have challenged the figures (1209) furnished by the Shanbhog as being willingly underestimated by the owners of cattle to escape "hullubanni." The Survey No. 103 proposed to be reserved is Kharab and not Gomal. The village has only 11·22 Gomal. The area marked off north of the line about 20 chains starting from the bandhs at the bend to the north-east of the north-west corner of Survey No. 36 and running along the ridge to the north of the temple in the said number to a bend 21 chains northwards to the north-west corner of 72 and thence to a point on the old Forest boundary line 5 chains from the north-west corner of No. 102 is constituted a reserve. This will give 102 its cultivation margin. There are no rights of way in the reserve.	
3	Santhappa, Patel of Kotemallur on behalf of the villagers.	15-9-19	States :— (1) that they cannot afford to give up part of Survey No. 79 and whole of 80 proposed to be included in the block; (2) that he saw the area marked off in the sketch for their use; (3) and that this may be done reserving to them the right of	...	The villagers of Kotemallur complain that the Gomal left is not within easy reach and as such a small portion of Survey No. 79 may be detached for their use.	The same objection was raised to the reservation of a part of Survey No. 79 and the whole of 80 in the proposed block. After they were told what they wanted and how much they would get and that their right to graze in Heregonigere lands would be conceded to them, the patel as spokesman of the villagers was agreeable to the following decision. The line separating the reserve from the village common will run from the point where it ended in Arakere at the junction of 80 and 79

			grazing in Hirigonigere lands as usual." (4) That Bilimallur people are also agreeable to this. (5) Prays that Survey No. 65 of Hirigonigere may be given to them for grazing with a way instead of Survey No. 69.	...	..	of this village all along the ridge till it reaches a point 5 chains south of the bandhs in the south-east corner of No. 17, Chikgonigere, and one chain to the east of this cultivation number treated as an enclosure. A lane will be left both as a margin for this number and for the use of the Kotemallur cattle going to graze in Hirigonigere gomal 65. One chain cultivation margin has been allowed for No. 68 of Hirigonigere recently come under the plough. There are no other rights of way in the reserve.	
4	Sankalpachar, patel of Chikkagonigere.	16-9-19	Represents that the villagers have no complaint against the proposed reserve. They have plenty of land to graze their cattle.	...	The area proposed to allow for the villagers by the Forest Settlement Officer is quite ample.	This village has only 320 quadrupeds and cannot want more than 150 acres of grazing ground. This I give the village by slicing off Nos. 28 and 16 by lines meeting at the southern common boundaries between the numbers. No. 17 will be treated as an enclosure with a chain margin all round. The rights of way recognized at the survey will be conceded and the cultivation margin for Nos. 13, 12 and 3 of this village and 67 and 71 of Hirigonigere will be given. The line as decided is shown in the sketch as described in detail in the boundary notification.	
5	Bheemabhatta, shanbhog of Hirigonigere.	Do	Represents that the villagers have no complaint against the proposed reserve. They have plenty of land to graze their cattle.	...	The area proposed to allow for the villagers is quite enough.	This village has an overfluous of gomal so much so that the villagers of Kotemallur and Bilimallur have been given grazing rights in Survey No. 69 of this village to make up for their local deficiency. I decide to include the whole of 69 in the block and to recommend the transfer of the grazing rights of Kote and Belimallur to No. 65 instead 68 will be treated as an enclosure with a chain margin all round. Access to this enclosure will be through gomal 65 and thence to the new reserve *viâ* the corner between 66 and 70. The usual margin will be allowed for 66, 70 and 71. There are no other rights of way. The right of way for the Mallur cattle through Survey No. 79 of Kotemallur will be continued through 69 up to the common corner of Nos. 65, 70 and 71 of Hirigonigere. There are no other rights of way. All these villagers will be given thorns, etc., for fencing purposes at half rates on licenses to be obtained from the Forest Department.

Government Order No. R. 2165-74—L. R. 419-10-4, dated 18th October 1912, accepting the Revenue Commissioner's recommendation to lease the two items—*honge* seeds and *honge* leaves—together to one and the same person as an experimental measure, the then existing seigniorage of Rs. 1-12-0, per 100 trees, being slightly raised at the Deputy Commissioner's discretion.

2. Government Order No. R. 7588-96 — L. R. 434-14-4, dated 19th January 1917, approving of the Revenue Commissioner's recommendation to lease the right to collect the said two items to one and the same person at Rs. 1-12-0, per 100 trees, preference being shown to local raiyats.

3. Government Order No. R. 972-81—L. R. 488-17-2, dated 15th July 1918, directing that the system of leasing out the leaves and seeds of *honge* trees on Government lands in accordance with the above orders be continued permanently.

4. Paragraph 6 of Government Order No. R. 12161-71—Ft. 143-16-6, dated 22nd March 1919, directing that among other matters the sales of minor forest produce require the confirmation of the Conservator of Forests in Mysore (and not the Deputy Commissioner as hitherto) when the value exceeds Rs. 500 in each case, the District Forest Officer himself passing final orders in other cases.

5. Government Order No. R. 2780-2—Ft. 221-17-4, dated 26th August 1919, stating that among other matters that as *honge* leaves and seeds are sold annually by the Revenue Department at Rs. 1-12-0, per 100 trees no further concession in the matter of the removal of leaves for cattle and manure is called for in the matter.

6. Letter No. 3259, dated 25th February 1920, from the Revenue Commissioner in Mysore forwarding the report of the Deputy Commissioner, Chitaldrug District, in the matter of the complaint of certain raiyats of the Molakalmuru Taluk that the Forest Department has sold the lease of the right to collect the *honge* leaves and seeds to the detriment of the requirements of the raiyats, and requesting that the lease may be modified by excluding the same from the list of minor forest produce, in the interests of the raiyat population, the power to sell the same being vested in the Revenue Department.

7. Letter No. 16, dated 22nd July 1920, from the Conservator of Forests, stating that the orders on the subject do not definitely require the Revenue Department to conduct the sales, that in the case in point the leaves and seeds were sold to one and the same person as a separate item without including them in the minor forest produce, that there was nothing to prevent the raiyats to bid for and purchase the right to collect the items, and that the action of the District Forest Officer is in accord with the orders of Government.

Order No. R. 3938-47— Ft. 176-19-4, dated 18th September 1920.

Government consider that it is desirable in the interests of the agricultural population to exclude both *honge* seeds and leaves from the category of minor forest produce and are pleased to direct that they should be sold in future as an independent item by the Forest Department preferably to raiyats.

West.—Then the line runs north-east along the common boundary between Kattige and Ballur to the starting point.

REMARKS.

The following rights of way are admitted within the block for use by men, and cattle in case of foot-paths which are 6 feet in width throughout the year.

I. Foot-path leading from Somannanamallapur to Guddadamallapur (of Dharwar District) it enters the forest in the southern boundary of the block at a point about 5 chains north-west from the north-west corner of survey No. 23 of Somannanamallapur and runs north-west for about 40 chains through survey No. 30 of Somannanamallapur and quits the forest in the northern boundary of the block at a point about 5 chains east from the north-west corner of survey No. 30 of Somannanamallapur.

II. Foot-path leading from Gopagondanahalli to Guddadamallapur (of Dharwar District) it enters the forest in the southern boundary of the block at a point about 9 chains north-east from the north-east corner of survey No. 12 of Somannanamallapur and

runs north-west for about 4 chains through survey No. 30 of Somannanamallapur and quits the forest in the northern boundary of the block at a point about 36 chains north-east from the north-west corner of survey No. 30 of Somannanamallapur.

CONCESSIONS.

The villagers of Kattige to get thorns, etc., wanted for fences from the areas left for them together with an extra quantity that may be required at half seigniorage rates on license from the Forest Department and the other villagers, *viz.*, Madenahalli, Somannanamallapur, Gopagondanahalli and Balamuri to get their thorns, etc., from the reserve at half seigniorage rates on license from the Forest Department.

1	Rangappa, shanbhog of Somanuanamallapur, on behalf of the villagers.	1 5-[illegible]	Represents that the villagers have no complaint against the proposed formation of the block taking up their lands and they have other areas for grazing their cattle, are 402 .	...	The area proposed to be allowed for the villagers is quite ample.	The preliminary notification of the block was promulgated by Government on 10th May 1918 The Revenue Commissioner in submitting the papers to Government observed in his No. C. 3589, dated 11—16th April 1916, that it would appear that in four villages the extent of gomal that will be left falls far short of and in the remaining two villages it just equals the prescribed minimum. It is very necessary that the requirements of the cattle should be adequately provided for with a margin on the safeside as far as possible at the time of the final settlement. The proposal of the Forest Department has therefore been modified to cover this contingency as much as practicable. The cattle total for this village is 402 and will want about 110 acres of grazing ground. This I provide for the village by continuing the Madenhalli line to a point 5 chains north east of the north-east corner of Survey No. 33 of this village and bringing it down south-west by about 5 chains and from there carrying it to the north western corner of assessed waste 74 from there the line runs north of Survey No. 29 and 26 to 5 chains west to the westernmost point of Survey No. 25, the line then goes north-east to a point 5 chains north in the north-west corner of Survey No. 24 and there turns south-west for about 5 chains north-east of the north-west corner of the said Survey No. 24. It then runs north-east to a point 5 chains south west of the north-west corner of Survey No. 12, thence it goes north towards a point 5 chains from the same corner and thence to a point 5 chains north to the common bandh between 12 and 11 and thence to a point on the common boundary between this village and Gopagondanahalli 5 chains north of the north-east corner of Survey No. 11. This will give all the cultivation numbers abutting on the reserve their required cultivation margin. The village will get its thorns, etc., from the reserve at half rates on licenses obtained from the Forest Department. The two paths leading from this village and Gopagondanahalli to Guddadamadapura in the Bombay Presidency will be allowed.	
2	Rangappa, shanbhog of Gopagondanahalli on behalf of the villagers.	Do	States that they have no case for complaint against the proposed reserve and taking up the lands. They have other areas for grazing their cattle are — Oxen 245, cows 46, calves, etc., 46, she-buffaloes 96, sheep and goats 310.	...	The area proposed to allow for the villagers by the Forest Settlement Officer is quite ample for the villagers.	The cattle in this village total 816 and will want about 200 acres of grazing ground. This I provide by giving them part of No 104 south of the line joining the last point in Somanuanamallapur with the bundhs 29 chains to the north-west of the common northernmost point of 106 and 115. This area together with the kharab No. 92 and 102 which may also be converted into gomal ought to suffice for the wants of the village. There are no rights of way nor any cultivation margin. The village will get its thorns as above.	
3	Basappa, patel of Kattige, on behalf of the following villagers:— Channabasappa. Muniyappa. Dod Timmappa, Banthappa.	Do	States that the cattle of Yarehalli are allowed to graze in their gomal if this should continue the village cannot afford to lose the gomal numbers. If however the Yerehalli		The area proposed to allow by the Forest Settlement Officer for the villagers is quite sufficient for their purposes.	The main contention of the villagers present at the settlement as represented through their spokesman the patel Basappa was all for the kharab and gomal area in the village being left intact for their cattle They laid stress on the concession granted at the Survey Settlement to the cattle of Yerehalli to

The Forest Range Officer that was present at the inspection and the settlement urged that the portions of Survey No. 133 contained sandal and teak trees and deserved being conserved.	
4	Krishna Rao, shanbhog gumasta of the Kattige village.	15-9-19	States that the shanbhog has sent him with the papers and the total cattle of the village are 966.	...	The area proposed to allow by the Forest Settlement Officer for the villagers is quite sufficient for their purposes.	The village of Kattige has a total annual census of 966 all told. The figure for Yerehalli is 1,110. These include sheep and goats entitled to half the grazing ground allowed to the bigger quadropeds. According to this calculation the gomal and kharab area that would be left for communal use amounting to 622 acres, 32 guntas ought to more than suffice for the wants of Kattige and Yerehalli. It is decided therefore to reserve the northern bits of Survey Nos. 133 and 139 giving the villagers the area in Survey No. 133 south of the line joining the northernmost point of cultivation No. 132 with the northernmost point of kharab No. 138 and in Survey No. 139 the northernmost point of assessed waste 140 with the bandhs in the bend of the eastern face of 139. I leave for the villages kharab Nos. 137, 138 and 149 and recommend their conversion into gomal to keep them out of grants in the district on darkhasts. The area that will remain for the village will thus approximate 622 acres and 32 guntas comprising of Survey Nos. 109, 137, 138, 149 and parts of 133 and 139. The next point that was urged was about thorns, etc., wanted for fences. This the villagers can get from the areas left for them together with any extra quantity that may be required at seigniorage rates on licenses from the Forest Department. I charge for them half rates to keep down their wants which would be unlimited if they could get the stuff free. There are no rights of way nor any large cultivation margin in this village.	
5	Basappa, patel of Madenhalli, onbehalf of the villagers noted below:— Basavegowda, Oograppa, Basappa and Siddalingappa.	Do	States that they cannot afford to give at the gomal No. 9 proposed to be included in the Madenhalli block and their cattle have no other grazing ground.	...	The area proposed to allow for the village use by the Forest Settlement Officer is quite enough for the use of villagers.	As elsewhere the main contention here was the delimitation of the village grazing area. The cattle in this village total 848 and will want only about 250 acres of grazing ground. I have given the village about 322 acres in Survey No. 9 which together with the other gomal area left intact and the kharab numbers ought to more than suffice for the wants of the village.	
6	Krishnappa, shanbhog of Madenhalli and Balamuri villages.	Do	States that the cattle figures as per Khaneshumari are 818.	...	Do ...	The said No. 9 will be sliced off by line joining the bandhs in the bend on the common boundary between Kattige and Madenhalli with the northernmost point of gomal No. 10 and the area north of this line will be included in the proposed reserve. There are no rights of way here. The small cultivation margin is allowed to the west and north of Survey No. 33 of Somannanamallapur. The villagers will get their thorns, etc., from

7	Mahadevappa, patel of Balamuri village, on behalf of the villagers.	15-9-19	Represents that half the No. 58 proposed to be included in the block may be left for village use and the cattle are 367.	...	The area proposed to allow for the village use by the Forest Settlement Officer is quite enough for the use of villagers.	The village has only 367 animals all told and its wants are not large. The patel was satisfied with the area to the south of the line joining the last point in Gopagondanaballi with a point on the common boundary between Balamuri and kayamgutta Hanumasagara about 56 chains north-west corner of Survey No. 58. This will be done. No rights of way nor any cultivation margin. The village gets its thorns, etc., as above.	
8	No claims have put forward by Chikyarehalli villagers.	...	.....	..	.....	The original proposal included a small packet in Chikyarehalli. The necessity for giving Somannanamallapur grazing ground out of gomal 31 adjoining its lands in holding will cut any land in this village from all contact with the main block. It is therefore decided to leave this village alone. T. CHOKKANNA, *Forest Settlement Officer in Mysore.*

Letter No. Dt. C. 742-19, dated 14th August 1920, from the Excise Commissioner, forwarding the records relating to the claim of the Inamdar of Sivanahalli, Anekal Taluk, to the Excise Revenue from toddy with his opinion in the matter

Order No. R. 3740-9—Ex. 46-20-2, dated 17th September 1920.

The Inamdar has failed to appear before the investigating officer to substantiate his claim, although he has acknowledged receipt of the notice calling upon him to do so. It is also reported that the Inam Settlement does not concede the revenue to the Inamdar. The Inamdar has therefore no claim to the Excise Revenue of the village in question.

2. Government observe that there is nothing in the records forwarded by the Excise Commissioner in Mysore to show that the Inamdar preferred a claim to Excise Revenue. Claims to this revenue need be investigated by the Deputy Commissioners only when they are preferred by the parties interested, and not otherwise.

Correspondence ending with letter No. A. C. 348 of 1918-19, dated the 8th September 1919, from the Inspector-General of Education, regarding the institution of a Provident Fund Scheme for the benefit of the employees of Aided Schools in the State.

Order No. 9762-3—Edn. 27-16-86, dated 11th September 1920.

The question of instituting a State Aided Provident Fund Scheme for the benefit of employees in aided schools has been under the consideration of Government for some time past. With a view to enable teachers of aided schools to make some provision after retirement for themselves and their families, the State Life Insurance Scheme has been thrown open to these teachers subject to certain conditions laid down in Government Order No. Pl. 5078-10—E. 47-17-1, dated 24th April 1918. Representations have since been received from the managers of certain aided institutions that for the improvement of the pay and status of the teachers in aided schools Government should help them in the institution of a Provident Fund Scheme by giving grants. The Inspector-General of Education who was consulted in the matter has proposed a set of rules and submitted them for orders of Government. The main features of the scheme as proposed by the Inspector-General of Education are:—

(1) that it should be obligatory on all permanent employees of aided school with certain exceptions to become subscribers to the fund;

(2) that the members should contribute 6¼ per cent of their salary, the management and the Government together contributing on behalf of the subscriber a sum equal to the amount subscribed by him;

(3) that the fund be managed by Committees;

(4) that the sums at the disposal of the Committee be invested in Government securities, Post Office Trust Bonds or other securities approved by Government.

The Inspector-General of Education proposes that the scheme may immediately be introduced in institutions managed by incorporated agencies and Missionary bodies or agencies which have funds of their own to contribute towards the necessary subscriptions due from the management. The Government share of the contribution to the fund for the introduction of the scheme as above is estimated at Rs. 1,275 per annum and the Inspector-General of Education recommends that [illegible] schools [illegible] and as sufficient provision [illegible] for [illegible] expansion, a sum of Rs. [illegible] be provided in future budgets for the purpose.

Government [illegible] opinion [illegible] scheme [illegible] institutions [illegible] Provident Fund [illegible] Government. The rules as [illegible] sanctioned [illegible] appended to this order.

The Inspector-General of Education is requested to obtain separate orders of Government in each case before the scheme is introduced in any particular institution.

Correspondence ending with letter No. A. C. 548 of 1918-19, dated the 8th September 1919, from the Inspector-General of Education, regarding the institution of a Provident Fund Scheme for the benefit of the employees of Aided Schools in the State.

Order No. 2792-3—Edn. 27-16-86, dated 11th September 1920.

The question of instituting a State Aided Provident Fund Scheme for the benefit of employees in aided schools has been under the consideration of Government for some time past. With a view to enable teachers of aided schools to make some provision after retirement for themselves and their families, the State Life Insurance Scheme has been thrown open to these teachers subject to certain conditions laid down in Government Order No. Fl. 5008-10—B. 47-13-1, dated 24th April 1914. Representations have since been received from the managers of certain aided institutions that for the improvement of the pay and status of the teachers in aided schools Government should help them in the institution of a Provident Fund Scheme by giving grants. The Inspector-General of Education who was consulted in the matter has proposed a set of rules and submitted them for orders of Government. The main features of the scheme as proposed by the Inspector-General of Education are :—

(1) that it should be obligatory on all permanent employees of aided schools with certain exceptions to become subscribers to the Fund.

(2) that the members should contribute 6¼ per cent of their salary, the management and the Government together contributing on behalf of the subscriber a sum equal to the amount subscribed by him.

(3) that the fund be managed by Committees.

(4) that the sums at the disposal of the Committee be invested in Government securities, Port Trust bonds or other securities approved by Government.

The Inspector-General of Education proposes that the scheme may immediately be introduced in institutions managed by incorporated agencies and Missionary bodies or registered Trusts which have funds of their own to contribute towards the necessary subscriptions due from the management. The Government share of the contribution to the Fund on the introduction of the scheme as above is estimated at Rs. 4,828-8-0 per annum and the Inspector-General of Education recommends that as the scale of expenditure of the schools varies from month to month and as sufficient provision has to be made for yearly expansion, a sum of Rs. 10,000 may be provided in future budgets for the purpose.

Government have carefully considered the proposals and are of opinion that aided agencies should be encouraged as far as possible and that a scheme like the one proposed is necessary for making service in aided institutions attractive to qualified persons and to keep the institutions themselves more efficient. They are accordingly pleased to approve of the scheme of a State Aided Provident Fund for the employees in those institutions. As regards the details of the scheme they consider that the Fund should be administered by Government. The rules as now revised by Government and sanctioned are printed as an appendix to this order.

The Inspector-General of Education is requested to obtain separate orders of Government in each case before the scheme is introduced in any particular institution.

No. 2792-3—Edn. 27-16-86, dated 11th September 1920.

RULES REGULATING THE AIDED SCHOOLS PROVIDENT FUND.

1. *Name of the Fund.*—The Fund shall be called 'The Mysore State Aided Schools' Provident Fund.'

2. *Extent.*—It extends to all the State Aided Schools in the Mysore State.

3. *Commencement.*—It shall come into operation from the 1st January 1921.

4. *Definitions.*—In these Rules the terms, 'State Aided Schools' means and includes the schools given in Schedule A hereto appended and those that may be added thereto from time to time with the previous sanction of Government;

'Employees' means and includes teachers, Pandits, Instructors, Writers, Librarians and all other full-time employees in the State Aided Schools to whom the benefit of the Fund may in accordance with these Rules be applied but shall not include those whose salary is less than Rs. 8 per mensem or Europeans.

'Controlling authority' is the authority in whom the administration of the Fund shall for the time being vest or to whom the same may be delegated by Government.

5. *Object of the Fund.*—The object of the Fund is to enable the employees of State Aided Schools to make suitable provision for themselves and their families.

6. *Membership.*—(i) Subscription to the Fund shall be compulsory in the case of all permanent employees entering service after the 1st January 1921. (ii) Subscription to the Fund shall also be open to (*a*) persons holding temporary appointments and (*b*) those who joined the service of the school prior to 1st July 1920 and continue in service provided that in the case of persons referred to in (*a*) the Manager of the Institution certifies that they are likely to be continued in service for at least three years and in the case of persons referred to in (*b*) they elect in writing before 1st April 1921, to become subscribers to the Fund.

7. *Rate of subscription.*—The monthly rate of subscription shall be 6¼ per cent of the amount of the substantive pay of the employee excluding remuneration for special occasional services or acting and personal or other allowances and shall remain fixed throughout the financial year, that is to say shall not be variable later on during the year on account of any increase or decrease in the rate of substantive pay of the employee, any increase or decrease in the pay being taken into account for fixing the rate of subscription from the commencement of the next financial year.

8. *Contribution.*—The management of the school and the Government will each contribute on behalf of the subscriber a sum equal to one-half of the subscriber's contribution.

9. The employee's subscription will be deducted each month from his pay and paid into the Treasury to his account by the Management along with its own contribution, while the contribution from Government will take the form of a single contribution at the time the employee retires or for other legitimate reasons withdraws his deposit, equivalent to one-third of the amount standing at his credit.

10. Subscriptions during absence on leave of any kind shall be optional. If however the employee elects to subscribe the Government and the Management will be bound to contribute in the proportion referred to above and the rate of subscription shall be calculated on the salary allowed to the employee during such period.

11. Interest at the rate of 4 per cent will be allowed on the employee's subscriptions as also on the contribution made thereto by the management. Government reserve to themselves the right to alter at any time the rate of interest payable on the subscriptions.

12. The subscriptions and contributions received under the foregoing rules will be credited on the books of Government to an account named the State Aided Schools Provident Fund. The general administration of the Fund shall vest with Government in the Education Department who may delegate all or any of the powers vested in them to any officer of Government. No withdrawal of any part of the deposits or the payment of any Government contribution will be allowed without the sanction of Government or the Officer to whom this power may from time to time be delegated.

13. *Management of the Fund.*—The Fund will be worked as part of the Government Savings Bank system, an account being opened for each subscriber. The teacher's contribution and that of the management will be paid into the nearest Taluk Treasury for credit to the individual accounts to be opened in the Government Savings Bank there.

14. *Withdrawal on retirement or death.*—(i) An employee who retires after 10 years' approved service or whose services are terminated for no fault of his will be entitled on retirement on the termination of his services to receive,

(*a*) his own subscriptions till then given,

(*b*) the contribution made on his behalf by the management, and

(*c*) the Government contribution. Together with the interest that had secured due on the aggregate amount calculated up to the end of the half-year immediately preceding the date of retirement or termination of services as the case may be.

(ii) In the case of voluntary retirement after five years and before the completion of ten years' approved service an employee will be entitled to receive,

(*a*) his own subscription paid till then,

(*b*) half of the contribution made by the management together with interest calculated as above on both.

(iii) Death or any permanent physical unfitness occurring within five years' service will however entitle the employee or his heir to the full benefit of the Fund that is to say, his own subscription and the contribution made on his behalf by the management and Government and interest as calculated above on all.

(iv) In the case of voluntary retirement before the completion of five years' service or of dismissal for dishonesty, incompetence, misconduct or gross insubordination, an employee will only be entitled to get back his own subscription up to the date of retirement or dismissal together with interest thereon calculated as above.

15. After he has completed 30 years' service, a subscriber's payments and also the contributions paid on his behalf by the Manager shall cease and the sum to be paid him on retirement shall be the amount to his credit in account on the date of completion of 30 years' service, the Government's contribution and the interest on the whole amount up to the end of half-year preceding the retirement, 30 years' restriction will not however apply to those already in service.

16. On opening an account in the Fund, each subscriber shall furnish to the Management a certificate in the prescribed form giving the names of one or more persons to whom he desires that in the event of his death the whole or any portion of the amount due to him from the Fund shall be paid and he may at any time revise the certificate and all certificates in force shall be duly registered by the management in a register kept for the purpose. A subscriber shall be at liberty to nominate any person or persons, whether his natural heirs or other relations who in the event of his death shall receive the amount due under the Rules; in case more than one person is nominated the proportion in which the amount is to be divided among them should also be specified; where the nominee is a minor, a guardian shall also be appointed who may receive the money on behalf of the minor. A subscriber shall be at liberty to change his nominee or nominees as often as he pleased, but only the person or persons last registered in the books shall be recognised for purposes of this Fund.

17. In the event of a contributor's death before or after retirement but before the money has been handed over.

(*a*) It will be divided in accordance with any nomination that may have been registered under Rule 16 and the receipt signed by the registered nominee or nominees shall be a full and valid discharge.

(*b*) In the absence of any nomination it will be paid to the legal representatives of the estate as determined by a civil court of competent jurisdiction, provided that if the sum remaining to be paid to the depositor does not exceed Rs. 500 it may be paid to such person or persons as the controlling authority may consider to be entitled thereto.

18. No payment shall be made to or on account of any subscriber until any debt that he may owe to the school has been paid, but no debt shall be contracted on the security of the provident contributions.

19. When the pecuniary circumstances of the subscriber warrant it, a temporary advance not ordinarily exceeding three months' pay may be allowed from the sum at the credit of the subscriber at the discretion of the controlling authority. The following may be recognised as legitimate occasions for advance :—

(i) to pay expenses incurred in connection with the illness of the subscriber or a member of his family;

(ii) to pay for the passage of any member of the subscriber's family coming from beyond the sea to join him or requiring to make a journey beyond the sea from urgent cause;

(iii) to pay expenses in connection with the marriages, funerals or ceremonies which by the religion of the subscriber it is incumbent upon him to perform and in connection with which it is obligatory that expenditure should be incurred.

Advances will be recovered at the discretion of the controlling authority in not less than 12 monthly instalments nor more than 24. A subscriber may however at his option make payment in less than 12 instalments or may repay two or more instalments at the same time. Recoveries will be made monthly commencing from the 1st payment of a full month's salary after the advance is granted but no recovery will be made from the subscriber while he is on leave of any kind. The instalments will be paid by compulsory deductions from salary and will be in addition to the usual subscription.

20. All lapses from the contributions except the amount paid by the Management shall be added on to the Fund, and the amount refundable to the Management in such cases shall be the amount contributed by them together with interest thereon at 4 per cent per annum.

21. Government reserve to themselves the right to amend, alter and annul all or any of the foregoing rules.

Correspondence ending with letter No. 592, dated 4th June 1920, from the Officer in charge of the Bangalore Public Library regarding the registration of the two City Libraries under the Societies Registration Regulation of 1904.

Order No. 2789-91—Edn. 12-19-136, dated 11th September 1920.

Government approve of the proposal that the two Public Libraries at Bangalore and Mysore be registered under the Societies Registration Regulation of 1904.

2. As regards the draft rules of Association forwarded to the two Library Committees for opinion, the Committees of both the libraries are in general agreement with them though the Committee of the Bangalore Library have suggested a modification that the members appointed by Government to the Committees of the Libraries need not necessarily become subscribers of the Library, provided they do not wish to avail themselves of its services. Government consider that only persons who are members of the library should be nominated to serve on the Committee as there will be no use in appointing as members of a Committee persons having no interest in the institution. The rules of Association as finally approved by Government are printed as an appendix to this order.

3. Government consider that in future the financial assistance from Government to these Libraries should take the form of grant-in-aid. The budgets of the libraries will after approval by the Committees of the respective libraries, be submitted to Government for sanction before the end of February each year. The Committees may incur expenditure on account of sanctioned items and within the budget limits sanctioned. The scale of establishment of the libraries will be fixed by Government and any addition to the staff or to the scale of pay should be sanctioned by Government.

4. The Comptroller is requested to submit proposals for the procedure to be followed in the matter of payment of bills, etc., and for providing for the audit of the libraries.

5. The Committees of Management of the two City Libraries are requested to take further steps to get the institutions registered at an early date, and report action taken in the matter for information of Government. The existing Committees of Management of the libraries will continue, pending their reconstitution according to the rules herein sanctioned.

Name.	The Public Library—
Object of the Institutions.	(i) to provide a Reading Room and Library. (ii) to make such other provisions as may be necessary for the diffusion of knowledge.

No. 2789-91 Edn. 12-19-136, dated, 11th September 1920.

Names, addresses and occupations of the governing body, *i. e.*, office-bearers and Executive Committee.

We, the several persons who have hereunto subscribed our names are desirous of being formed into a Society in pursuance of this Memorandum of Association under Regulation III of 1904.

1. *Name.*—The Institution shall be called the Public Library, $\frac{\text{Bangalore}}{\text{Mysore}}$.

2. *Object.*—The object of the Institution shall be to provide a Reading Room and Library and to make such other provision as may be necessary for the diffusion of knowledge.

3. *Membership.*—The members of the institution shall consist of

(i) the persons who have subscribed to the application for Registration,

(ii) those who have joined the institution prior to registration but who have not signed the application,

(iii) such persons as are admitted to membership from time to time under these rules.

4. A candidate for membership must (*a*) ordinarily be residing within the State of Mysore or the C. & M. Station of Bangalore, (*b*) be legally capable of entering into contract, (*c*) not be one convicted of any serious criminal offence (*d*) not be a bankrupt or lunatic.

5. Applications for membership must be in the prescribed form, be supported by a member, and be accompanied by a remittance of the entrance fee and the subscription for the first month. The entrance fee shall be equal to the monthly subscription of the class of which the applicant desires to be a member.

6. Applications for membership may be disposed of by the Secretary in consultation with any two members of the Committee. In case of rejection of an application the amount remitted with the application shall be refunded to the applicant.

7. There shall be three classes of members :—

A. Class paying a monthly subscription of Rs. 2.
B. Class paying a monthly subscription of Re. 1.
C. Class paying a quarterly subscription in advance of Re. 1-8-0.

The privileges of the three classes of members shall be as follows :—

A class members shall be entitled to take out at a time four volumes from the Library.

B class subscribers shall be entitled to take out two volumes at a time.

C class subscribers shall be entitled to borrow only one volume at a time, but they shall have no access to the subscribers' table. They shall further have no right to vote in any meeting of the members of the Library or have any voice in the management of the institution.

8. The monthly subscription shall be paid in advance before the 10th of every month. Subscribers who make default will be liable to have their privileges suspended.

9. Where a member allows his subscription to fall into arrears for over 3 months, a notice shall be issued to him and if the amount of arrears be not remitted within a fortnight from the date of demand, the name of such member shall be put up as defaulter on the notice board and his name shall be removed from the list of members and necessary steps taken to recover from the defaulter all moneys outstanding against him.

10. Membership shall cease by (i) Resignation (ii) Removal (iii) Death.

11. A member may at any time resign his membership provided that arrears of subscription shall be paid up to the date of resignation including subscription for the month in which the resignation is tendered.

12. The name of a member may be removed from the list of subscribers for :—

(i) wilful default as explained in Rule 9 above,
(ii) for any criminal offence of which the member may stand convicted and which in the opinion of the Committee is of a serious nature,
(iii) lunacy or bankruptcy,
(iv) any wilful violation of the rules.

12. *General Committee.*—The affairs of the institution shall be managed by a General Committee consisting of 15 members of whom 7 shall be elected by the members every year and the rest nominated by Government from amongst subscribers to the Library.

No. 2789-91—Edn. 12-19-136, dated 11th September 1920.

13. The members of the General Committee shall hold office for one year or until their successors are appointed. Any casual vacancy occurring in the interval shall be filled up as soon as convenient by the election or nomination as the case may be, of a person otherwise duly qualified who shall hold office for the remaining term.

14. There shall be a President who will be nominated by Government, a Secretary and such other office bearers as may be necessary and elected by the General Committee from among the members thereof.

15. The General Committee shall meet once in every quarter on the 3rd Saturday in the first month of the quarter or on such other date as may be fixed by the Sub-Committee. Its ordinary business will be (i) to pass the budget of income and expenditure, (ii) to receive the progress report of the transactions of the preceding quarter presented by the Sub-Committee, (iii) to discuss questions arising out of that report or other questions that may be placed before them by the Sub-Committee or any other proposition or propositions that may be moved by any of the members and of which due notice shall have been given:—

(iv) to issue annual report of the working of the institution,
(v) to exercise general superintendence over all the affairs of the library,
(vi) to frame subsidiary rules to regulate the working of the institution.

The Committee will have no power to alienate or deal with any property movable or immovable belonging to the public Library except to the extent of any authority conferred on them by any general or special orders of Government.

16. An extraordinary meeting may be convened at any time on the motion of the President or on the written requisition of not less than three members of the General Committee who shall state in writing the business for which they wish the meeting to assemble.

17. Any six members shall form a quorum. If there be no quorum present within 15 minutes for the time appointed for the meeting, the meeting shall stand adjourned to a specified date at which adjourned meeting the business of the meeting may be disposed of irrespective of whether a quorum is present or not.

18. The President of the Committee shall preside over the meetings and in his absence the members present shall elect one among them, to preside over the meeting

19. All questions before a meeting shall be determined by a majority of votes and when notes are equal the President or Chairman shall have a second or casting vote.

20. Any member who wishes to bring up a proposition for consideration by the General Committee shall give to the Secretary at least ten days' previous notice thereof.

21. *Sub-Committee* —There shall be a Sub-Committee to carry on the ordinary business of the Library and it shall consist of five members to be elected by the General Committee from amongst its members, the President and Secretary of the General Committee being *ex-officio* President and Secretary of the Sub Committee respectively. The members of the Sub-Committee shall be elected annually at the first meeting of the General Committee in the official year.

22. The ordinary duties of the Sub-Committee shall be :—

1. To prepare the annual budget for submission to the General Committee.
2. To select books, newspaper and magazines for the Library.
3. To arrange for the audit of the Libraries accounts and an annual stock-taking.
4. To dispose of the visitors' suggestions and complaints.
5. To prepare quarterly and annual progress reports for submission to the Genera Committee.
6. To accept or reject free offers of books and journals for permanent or temporary use in the Library.
7. To formulate measures for the general improvement and extension of the Library.

23. The Sub-Committee shall meet ordinarily once a month and generally three days' previous notice shall be given of each meeting of the Sub-Committees. An extraordinary meeting may be convened on the motion of the President or on the written requisition of not less than two members of the Sub-Committee.

24. Any three members shall form a quorum. In the absence of a quorum within 15 minutes of the time fixed for the meeting the procedure prescribed in Rule 17 above for the conduct of business of the General Committee shall be followed.

25. The President shall preside over all the meetings of the Sub-Committee and in his absence one of the members present may be elected to preside over the meeting. The Chairman shall have a casting vote in case the votes are equally divided on any proposition.

26. A member of the Sub-Committee who absents himself without notice from three consecutive meetings shall be deemed to have vacated his seat on the Sub-Committee, his place being filled up by the Sub-Committee by election from among the members of the General Committee, the new member holding his seat for the remaining period of office of the Sub-Committee. Casual vacancies occurring during the year may likewise be filled by election from among the members of the General Committee.

27. The proceedings of the General and Sub-Committees shall be recorded in books kept for the purpose.

28. Urgent matters may be disposed of by the President when there is no time to convene a special meeting and the matter laid before the Sub-Committee at the earliest opportunity.

29. The annual general meeting shall be held after 14 days' notice as soon as possible after the close of the year to receive from the Committee a Report of the Management of the Institution the Auditor's Report and an abstract of the accounts of the preceding year together with the estimates of receipts and expenditure for the current year and also for the purpose of transacting any other business that may be brought before the meeting.

30. The rules may be annulled, altered or added to at a general meeting of the members convened for the purpose and such addition, cancellation or amendment shall not have effect until approved by Government.

31. The Committee will be bound to furnish to the Government such reports, returns or other information as may be called for or prescribed from time to time.

32. Whenever Government consider that in any matter the affairs of the institution are not managed in furtherance of the objects of the Institution it shall be competent to Government to issue such instructions as may be necessary and to exercise such powers as may be necessary for giving effect to such instructions, anything in these bye-laws notwithstanding.

Letter No. 189- -H. C., dated 22nd December 1919, from the Inspector-General of Education in regard to the revival of the system of monthly cash accounts abolished in the year 1917-18.

2. Un-official Note No 1729—Books, dated 5th February 1920, of the Comptroller giving his opinion in the matter.

3. Correspondence ending with unofficial Note dated 17th August 1920, of the Inspector-General of Education forwarding his opinion on the procedure to be followed in the several schools and offices in the matter of the preparation of accounts in future.

Order No. 2984-5- Edn. 386 19 5, dated 18th September 1920.

The arrangements suggested by the Inspector-General of Education are as follows :—

(1) *V.-E. Schools.* The annual accounts of these will as usual be forwarded to the Inspector-General of Education by the Assistant Inspectors of Education.

(2) *A.-V. and Taluk Schools.*—The annual accounts only of each individual school will be received in the Inspector-General of Education's office direct from the Head Master, copies thereof being simultaneously submitted to the District Inspectors for their information and scrutiny. The Inspecting Officers will however examine at the time of their inspection whether the salaries and scholarships drawn have been disbursed to parties concerned and the fees collected for admission and re-admission are remitted to the Treasury.

(3) *A.-V. School-only.*—Once a quarter in October, January, April and July a copy of the monthly pay bills only of the three months comprising the previous quarter will be received in the office of the Inspector-General of Education direct from the Head Masters.

(4) *High Schools, Central Institutions such as Training Colleges.*

(*a*) Monthly cash accounts will be received in the office of the Inspector-General of Education direct from the Head Masters or Superintendents and will be checked and scrutinised.

(*b*) Annual accounts will also be submitted by the Heads of these Institutions to the Inspector-General of Education direct.

The above proposals are approved.

Rules for the Maintenance of Accounts in regard to cash transactions in the office of the Inspector-General of Education.

No. 3292-3—Edn. 124-20-2, dated 29th September 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Government Order No. 8107-8—Edn, dated 27th February 1919, requesting the Inspector-General of Education to submit proposals in consultation with the Comptroller for avoiding cash transactions in his office.

2. Letter No. C. 7295, dated 29th July 1920, from the Inspector-General of Education, submitting a set of rules framed by the Comptroller for the maintenance of accounts in regard to cash transactions and stating that the rules are being adhered to except that no security has been taken from the official entrusted with cash transactions.

Order No. 3292-3—Edn. 124-20-2 dated 29th September 1920.

The rules are in accordance with the procedure generally adopted in all offices and are approved with the following modifications :—

1. In Rule No. 6, deposits relating to conditional endowments awaiting sanction of Government may be kept in the treasuries themselves if necessary as Savings Bank deposits the pass books being kept by the Inspector-General of Education, pending their acceptance instead of keeping the amounts in the Mysore Bank.

2. The following be added as Rule 8 :—"Cheques and drafts should be invariably obtained for all Khadayata Scholarships to be disbursed. On no account should the money be drawn by the Inspector-General's office."

The rules as thus revised are appended to this order.

The Inspector-General of Education is requested to enforce the last clause in Rule 4 requiring adequate security from the official entrusted with cash.

Rules for the Maintenance of Accounts in regard to cash transactions in the office of the Inspector-General of Education in Mysore.

Earnest money and guarantee deposits may be directly remitted to treasury by tenderers themselves to the credit of Revenue deposits and treasury receipts sent to the Inspector-General's office. These receipts should be numbered consecutively for each official year and posted on to a guard file as they are received and entries of these deposits made in the Deposit Register to be maintained in Form No. 50 of the Mysore Account Code. Vol. I. Whenever these deposits are to be refunded, repayment vouchers may be prepared in Form No. 49 of the Account Code and handed over to persons to whom refunds are to be made. When any deposit is to be forfeited to Government a repayment voucher may be signed and passed for payment by credit to the head concerned. The voucher may be sent to the treasury with a chalan and the remittance book. A note of repayment should at once be made in the deposit register against the items concerned.

No. 3292-3—Edn. 124-20-2, dated 29th September 1920.

2. For all moneys received in the office on any account from private persons, printed receipts should be granted in Form No. 2 of the Mysore Account Code. These receipts should be bound into books containing, say 100 receipts. The books should be numbered consecutively and the number of each book repeated in print on every receipt in the book. The receipts in each book should also be consecutively numbered in print. When the books are received printed from the press the number of pages in them should be actually counted and certified to in each book. A stock register should be maintained in the marginally noted form showing the number of books received and issued and the number on hand The certificates in the receipt books and the entries in the register should be duly attested by a Gazetted officer. No more than one book should be in use at the same time.

Date	No. received	No. issued	Balance	Initials of Gazetted Officers

3. A cash book should be maintained in the form prescribed under Article 3 of the Mysore Account Code, Vol. I. All cash received in the office and paid including pay and travelling allowance of establishment and contingencies should be entered in the cash book as transactions occur. The cash book should be closed daily and the closing balance brought out. All the entries in the cash book and the cash balance should be verified by a Gazetted Officer who in token of the correctness of all entries including the closing balance will affix his signature to the cash book.

4. Cash balance should be kept under lock and key in a cash chest which will have two locks. The keys of one of the locks will be with the Gazetted Officer in charge of cash those of the other lock being left with the official entrusted with cash transactions. As regards the safe custody of cash and cash transactions generally Articles 2 and 3 of the Mysore Account Code may be followed. Suitable security should be recovered from the official entrusted with cash transactions under Article 4 of the Mysore Account Code.

5. At the end of each month the cash balance should be analysed by means of the general ledger or classified abstract (*vide* Article 3 of the Mysore Account Code).

6. A remittance register should be maintained in form No. 1 of the Mysore Account Code for all cash remitted to treasury. Conditional endowments awaiting sanction of Government may be kept in the treasuries if necessary as Savings Bank deposits the pass books being kept by the Inspector-General of Education pending the acceptance of the endowments.

7. A register of endowments may be kept in the form noted below * Each entry in the register should be attested by a Gazetted Officer.

8. Cheques and drafts should be invariably obtained for all Khadayata Scholarships to be disbursed. On no account should the money be drawn by the Inspector-General's Office.

9. Acquittance roll for disbursement of pay and travelling allowance of establishment and Khadayata Scholarships as well as contingent register in form No. 21 of the Mysore Account Code will of course be maintained as required by article 3 of the Mysore Account Code. Balances may be verified from the unacknowledged items in the acquittance roll.

10. Moneys not actually received in the office but remitted direct to treasury to the credit of Revenue deposits, etc., need not be entered in the cash book.

READ—

Government Order No. 4524-37—A. & E. 50-18-8, dated 27th November 1918, publishing the rules as modified for the grant of loans for Sericultural Improvement.

Correspondence ending with letter No 94, dated 14th July 1920, from the Superintendent of Sericulture, submitting a scheme for meeting the demand for disease-free eggs and for ensuring the production of good seed cocoons through private grainages and suggesting the following measures :—

(*a*) Selection of good rearers in suitable localities.

(*b*) Stimulating by concessions or assistance the construction by them of suitable rearing rooms.

(*c*) Distribution to them of carefully selected Cellular seed from Government Grainages.

(*d*) Departmental supervision during rearing, to ensure that the health of the worms is good, and proper hygienic conditions are being maintained.

(*e*) Purchasing all the cocoons of a satisfactory rearing and selecting the best of the lot for manufacturing industrial seed.

(*f*) Manufacture of industrial seed and test by per cent : microscopic examination.

Order No. 2592-604—A. & E. 198-19-4, dated 9th September 1920

The Superintendent of Sericulture requests sanction to the following concessions which he considers necessary to give effect to the scheme.

Supply of disease-free eggs free of cost to the rearers selected.

An assurance to the rearers that cocoons reared by them would if satisfactory be purchased by Government at a special rate, *viz.*, 10% higher than that prevailing in the vicinity.

Grant of loans free of interest for building rearing rooms on approved lines and in sanitary surroundings.

He also requests that as he will be in a better position than the Revenue authorities to see whether the grainor fulfils his obligations he might be authorised to grant loans up to Rs. 500 in such cases.

Government are pleased to sanction the proposals of the Superintendent for a period of one year with effect from 1st October 1920, with the reservation that the loans granted by him should bear an interest of 5% per annum as in the case of other Sericultural loans.

2. Letter No. 2265-2, dated 20th April 1920, from the Secretary, Board of Agriculture, forwarding for the sanction of Government a set of revised rules framed by a special Committee appointed for the purpose and adopted by the Board, and recommending the relaxation of the rules for (i) the reservation of a 50 yards margin on either bank of a spring, stream, etc., and (ii) for giving preference in the grant of land to local applicants or Joint Stock Companies which are able to raise half the capital required.

Order No. 2621-32—A. & E. 247-19-3, dated 9th September 1920.

After careful consideration, Government are of opinion that the relaxation of the rules referred to by the Board of Agriculture is not necessary. In the case of *bona fide* applicants to whom such conditions are likely to be prejudicial, Government are prepared to consider each case on its merits and to make such modifications as may be necessary or suitable.

2. Subject to the above observation, Government are pleased to accord their sanction to the revised rules recommended by the Board of Agriculture.

REVISED RULES FOR THE GRANT OF LAND FOR TEA CULTIVATION.

1. Applications for land for tea cultivation shall be made to the Amildar in the first instance setting forth the area required, the survey numbers, the village, and the hobli in which the land is situated.

Among the applicants for land, preference will be given to local applicants or to Joint Stock Companies which are able to raise half the capital locally.

2. The land applied for, when more than 50 acres in extent, shall be inspected by a higher Revenue Officer than the Amildar, and when situated in a valuable timber tract, by the District Forest Officer.

3. In all cases, the enquiry shall be instituted as to whether the land can be given out for cultivation without prejudice to the interests and rights of neighbouring village communities and of the Forest Department.

4. Ordinarily, no application shall be entertained for an area larger than 500 acres, but in special cases in which the Deputy Commissioner is satisfied of the applicants' ability to bring under cultivation a larger area within a reasonable time, an application may be entertained for such area as the Deputy Commissioner may consider reasonable. All grants of land exceeding 250 acres will be subject to confirmation by the Revenue Commissioner and when the area exceeds 500 acres by Government.

5. No land containing valuabe timber trees which it is desirable that the Government should in the Forest Department, conserve and work, shall be granted for tea cultivation.

6. The land shall be granted subject to the following conditions:—

(*a*) It will be held free of assessment for the first five years from date of grant and on full assessment at the rate of Rs. 1-8-0 per acre from the 6th year onwards.

(*b*) No grant will be made unless the applicant is able to prove that he can raise the necessary capital for starting the industry.

(*c*) One-fifth of the area granted shall be planted every year.

(*d*) After the completion of five years from the date of the grant, a title deed will be issued to the grantee on payment of an upset price of Rs. 10 per acre. Till then, no portion of the block will be allowed to be alienated.

(*e*) The grantee shall bind himself in writing to pay the full assessment from the 1st year in the event of his resigning the land after cutting down the timber on it or otherwise clearing any portion of it but without having made any *bona fide* attempt to bring under cultivation the arable area included in it.

(*f*) The rules requiring the reservation of a margin of 50 yards on either bank of a stream, spring, etc., shall be strictly observed; but Government will be prepared to relax this rule according to their discretion, in suitable cases on behalf of *bona fide* applicants.

(*g*) If at any time before the fifth year the grantee wishes to obtain the title-deeds he shall be entitled to claim them on payment of the upset price on the land.

7. The upset price fixed as above shall include survey expenses and the right of Government to all reserved trees except sandal. which shall always be reserved absolutely to the Government.

8. In cases where there are more applicants than one for the same block, it shall be sold by auction.

9. Before the land is advertised for sale, the applicant shall deposit with the Deputy Commissioner one-fourth of the upset price fixed as above.

10. Full notice of every intended sale shall be published in the neighbouring villages and all sales of blocks of greater extent than 250 acres shall be advertised in the official gazette.

11. The sale shall be by public auction under the usual conditions, and the lands shall be knocked down to the highest bidder above the upset price fixed, whereupon the purchaser shall deposit a sum equal to 25 per cent of his bid, and in default of such deposit, the property shall forthwith be again put up and sold. The full amount of purchase money shall be paid before sunset of the 15th day from that on which the sale of the land took place or if the said 15th day be an authorised holiday, then before sunset of the first office day after such 15th day.

12. In default of payment within the prescribed period of the full amount of purchase money, the deposit, after defraying thereout the expenses of the sale, shall be forefeited to Government and the property shall be resold, and the defaulting purchaser

shall forfeit all claim to the property or to any part of the sum for which it may be subsequently sold provided that in any case in which the enforcement of this condition may involve undue hardship, it shall be competent to the Deputy Commissioner to submit the necessary recommendation for the orders of Government.

13. If the proceeds of the sale, which is eventually made, be less than the price bid by such defaulting purchaser, the difference shall be recoverable from him by the Deputy Commissioner as arrear of land revenue.

14. The deposit of one-fourth of the upset price made by the applicant under para 9 above, shall, if the land be knocked down to him at the auction be credited towards his deposit of 25 per cent of the purchase money, and it shall be refunded to him if the land is purchased by another person in the auction.

15. The Deputy Commissioner may, in his discretion, grant to the holder of a tea estate on a fair valuation, and without auction, any moderate extent of Kharab land adjoining his estate which may be unfit for tea cultivation, such as (1) drying grounds, (2) Factory buildings, (3) Store buildings, (4) Cooly lines and (5) bungalows. In making grant under this rule due regard shall be had to the provisions of the preceding rules as far as they apply, provided that in no case shall the extent of land to be granted by the Deputy Commissioner under this rule exceed ten acres for any single estate without the previous sanction of Government.

Land granted under this rule shall be assessed at Re. 1 per acre.

The proprietor of a tea estate may be allowed to erect cooly lines, factories, store buildings, etc., on the assessed land under his occupation.

16. Lands granted under these rules shall be granted a guarantee of 30 years and title-deeds shall be granted to the grantee specifying the conditions and privileges of the grant in the form given in Appendix B of the Revenue Rules. If the area taken up does not exceed 20 acres, a Patta according to Form No. 4 given in Appendix A of the Revenue Rules can be granted, but the tenure will be the same as if a title-deed in the form given in Appendix B of the Revenue Rules had been granted.

17. A fee of one rupee for each title-deed shall be recovered from the grantee for cost.

Order No. 3264-77—A. & E. 57-18-15, dated 28th September 1920.

In their Order Camp No. 24-73—A. & E. 62-15-21, dated the 14th June 1916, Government have laid down the main lines of work for the Sericultural Department. A whole time Superintendent of Sericulture has since been appointed and an expert has also been engaged from Japan for carrying on investigations into the scope that exists for the improvement of the silk industry in all its aspects. Government consider that the time has arrived for placing the tentative arrangements according to which the work of the department has been carried on till now, on a permanent basis so as to ensure its being developed in a more organised and systematic manner in future.

2. The important items of work which demand attention in connection with the development of sericulture and the silk industry in general are :—

(*a*) Improvements in, and the extension of, the cultivation of mulberry.

(*b*) The rearing of silk worms according to improved methods and the introduction of suitable foreign varieties to improve the quality and the production of cocoons.

(*c*) Arrangements for the supply of disease-free seed to the raiyats and for the prevention of diseases of silk worms and creation of special facilities for supply of disease-free seed on a large scale by organising a scheme of licensed seed growers to undertake the rearing and supply of industrial seed and the grant of concession to such growers and locating Government grainages in suitable centres to supply seed to licensed growers.

(*d*) Introduction of improved methods of reeling and other preparatory processes for supplying silk to the market and facilities for the supply of appliances and the establishment of an up-to-date filature in a suitable locality.

(*e*) Development of foreign and local markets for Mysore Silk by increasing the supply, reducing the cost of production by the introduction of better methods in regard to the disposal of cocoons and raising the standard.

3. As the work to be carried out by the Sericultural Department is closely allied to that of the Agricultural Department, Government consider that for the

present and until the Sericultural Department develops sufficiently to necessitate its being continued as a separate department it may advantageously be associated with the Department of Agriculture and treated as a part thereof. The Government are accordingly pleased to direct that the Sericultural Department, together with the whole of the establishment connected therewith, be placed under the Director of Agriculture as a separate section of the Agricultural Department with effect from the 1st October 1920.

4. The Superintendent of Sericulture will in future work under the general direction and control of the Director of Agriculture and be primarily responsible for the development of the Sericultural Industry in the State. He will consult and freely avail himself of the co-operation of the Department of Industries and Commerce in matters relating to the industrial and commercial side of the work such as effecting improvements in reeling, establishment of a filature, development of markets for Mysore silk, etc. The headquarters of the Superintendent will be at Mysore where the Sericultural Training Institute is located.

5. The Superintendent will be allowed to exercise the powers delegated to him in respect of appointments, transfers, etc., in Government Order No. 7983-8027—A. & E. 57-18-5, dated the 25th February 1919. All other appointments except that of Senior Sericultural Inspectors and the higher staff of the Department which requires the sanction of Government will be made with the approval of the Director of Agriculture.

6. The Japanese Expert will work in subordination to the Superintendent. His headquarters will also be fixed at Mysore as it is necessary to concentrate in a single place all experiments regarding the improvements in the Mysore breed of silk worms. The expert will be placed in charge of the laboratory and the Sericultural Training Institute, and will be given complete freedom and facilities for carrying on all technical and research work he considers necessary in the interests of the development of the industry. A programme of work which he will undertake in this respect should be obtained from him and submitted to Government for information on his return. In addition to the training of students, the Expert will inspect also the Government grainages and furnish necessary advice and assistance for the proper and satisfactory discharge of technical work on the part of the Inspectors.

7. With a view to enabling the Department to cope with the increasing demands for disease-free seed, the Superintendent of Sericulture proposes the establishment of four fully equipped grainages at Mysore, Channapatna, Kolar, and Kunigal, and also a hill station on the Bababudans. He has proposed the following scale of establishment for each of the grainages:—

1.	Senior Inspector	1
2.	Inspectors or Inspectresses for Microscopic work	2
3.	Operatives for preparing slides	3
4.	Inspectors or Inspectresses for rearing seed cocoons	2
5.	Clerk	1
6.	Peon	1

8. Government agree with the Superintendent of Sericulture in regard to the necessity for the establishment of a sufficient number of grainages to cope with the demand for the supply of good seed. They, however, consider that the scale of establishment proposed is high. Of the 4 grainages proposed to be established those at Channapatna and Mysore will be treated as first class grainages, and the other two at Kolar and Kunigal, as second class grainages, and they will be provided with the establishment shown in Statement **B**. The establishment of a hill station on the Bababudans for rearing hill stock is also sanctioned as proposed by the Superintendent. Temporary arrangements will be made for carrying on this work till permanent buildings, etc., are provided for the purpose.

9. Government consider that the paramount need of the silk industry at present is the systematic and adequate supply of disease-free seed to rearers

and the introduction of better trade methods in regard to the disposal of cocoons. It is not practicable for Government at once to supply all the seed required by rearers in the State and a scheme of entrusting licensed growers with a part of the work which is said to be followed with success in Japan deserves a careful trial. In addition to the Government grainages therefore arrangements should at once be made to ensure as large a supply of disease-free seed as possible by the introduction of the system of licensed private seed growers referred to in para 2 (*c*) above. The Superintendent is therefore requested to submit at a very early date, through the Director of Agriculture, a comprehensive scheme embodying proposals as regards the places in which such private growers will be licensed, the terms of the license, and the arrangements that are to be made to keep them well supplied with careful selected seed from the Government grainages.

10. Government apprehend that the present trade methods in regard to disposal of cocoons are also not quite satisfactory. It is necessary that associations should be brought into existence representative of the producers and buyers of cocoons which would undertake to popularise the purchase of cocoons according to the layers of silk contained rather than by weight as is the prevailing practice at present. The Superintendent should therefore devote particular attention to this important aspect of the industry also.

11. The grainages should as far as possible be run on commercial lines and be made self-supporting. Expenditure on experiment should be kept distinct from expenditure which is expected to be recouped by the sale of eggs.

12. Government also consider that some revision of the existing staff is necessary in view of the recent development in the work of the department and the additional work which will devolve on it by the present order. A detailed statement **A.** is appended showing the existing scale of establishment and the revised scale as now sanctioned including the additional staff to be entertained on account of the grainages and hill station. The allocation of the staff in the several institutions will be as indicated in the appended Statement **B.** The result of the revision will be that the executive staff is strengthened by the addition of 7 Inspectors and 22 Operatives, provision being made for the entertainment of an Inspector and an operative in each of the districts of Mysore, Bangalore, Kolar, Tumkur and Kadur to give special attention to the development of Sericulture in these districts. The appointment of one of the present probationers will be counted against that of the Assistant Superintendent and will cease when the latter post is filled up. The additional expenditure on establishment according to the revised scale as shown in the statement appended hereto amounts to Rs. 11,512 per annum for which provision has been made in the Budget of the current year.

13. The Superintendent has proposed the appointment of 30 practitioners who have undergone training in the school on the regular establishment. Government do not see the necessity for these appointments in addition to the establishment of Inspectors and Operatives sanctioned by them. It is evidently not possible for Government to undertake to provide employment for all the students who pass out of the school. The successful students may be appointed to vacancies among operatives and Inspectors in the Department, the better qualified and educated among them being appointed as Inspectors and the others as operatives. When so appointed they will be on probation for one year during which they will draw pay as shown below and will then be confirmed on the minimum pay of the appointment if they give satisfaction in their work :—

Inspectors	...	...	Rs. 25 per mensem.
Operatives	....	....	,, 12 ,,

Women employed as Inspectors or Operatives will get an allowance of Rs. 5 and 3 respectively in addition to the pay of the appointment.

No. 3264-77—A. & E. 57-18-15, DATED 28TH SEPTEMBER 1920.

14. As the number of men already trained in the Sericultural Training Institute is more than sufficient to meet the immediate needs of the department, it should be the aim to utilise the institution more largely in future in training persons likely to adopt sericulture as their principal occupation. The Superintendent is requested to submit proposals through the Director of Agriculture for any modifications as may be necessary in the present arrangements to secure this purpose.

No. 3264-77—A. & E. 57-18-15, dated 28th September 1920.

Letter No. 1473, dated the 11th September 1918, from the Secretary to the Mysore Economic Conference, Bangalore, to the Secretary to the Government of H. H. the Maharaja of Mysore, Departments of Education and Agriculture, Bangalore.

I have the honour to forward herewith for orders of Government copy of letter No. 228, dated 27th—30th July 1918, together with its enclosure received from the Superintendent of Sericulture in Mysore in the matter of strengthening the staff of the Sericultural Department.

The establishment proposed by the Superintendent is based on full requirements of each farm, etc., after it is brought into working order but having regard to want of men and necessity for steady development, it may be entertained according to actual requirements from time to time. For the present only the grainage at Channapatna may be provided with the entire establishment proposed. Another grainage will be selected during the next year for similar expansion. The others may be suitably equipped according to the increase in the scale of the operations from time to time.

The extra cost may be regulated as follows :—

Rs. 8,000 in the current year.
Rs. 15,000 in 1919-20.
Rs. 20,000 in 1920-21.

Copy of letter No. 228, dated the 27th July 1918, from the Superintendent of Sericulture in Mysore to the Secretary, Mysore Economic Conference, Bangalore.

I have the honour to submit herewith proposals for strengthening the staff of this Department on the following grounds:—

The work has increased and improved in every direction, popular confidence has been secured, all the Government Farms are in working order, important experiments have opened up fresh avenues of activity, and a definite policy has been evolved. During the current year, not only will the head way made so far have to be maintained and improved, but a good beginning will have to be made in organising efficient grainages, supplying a large quantity of seed on improved technique.

Even now work has grown to such an extent that the existing staff is hardly able, with strenuous exertion, to cope with it, and several promising fields have had to be left unattempted for want of men.

Besides developing the work of all existing institutions we shall this year have to provide for—

1. 4 grainages—Mysore, Channapatna, Kolar, Kunigal.
2. 1 hill station and new district—Kadur, Bababudans.
3. Standardisation of reeling—Channapatna.

As has been explained in my schemes of grainages (which was personally discussed with you and approved by Mr. C. M. Hutchinson) each grainage requires:—

1 Senior Inspector or other Superior officer.

3 Inspectors or Inspectresses for microscopic work. (May for the present reduce the number to two.)

3 Operatives for preparing slides.

3 Inspectors or Inspectresses for rearing seed cocoons. (We may just at present reduce this number to two.)

1 Clerk for accounts and despatch of eggs.

1 Peon.

Or for all four grainages the minimum requirement is—

4 Senior Inspectors.
8 Inspectors or Inspectresses for microscopic work.
12 Operatives for preparing slides.
8 Inspectors or Inspectresses for rearing cocoons.
4 Clerks.
4 Peons.

We require also an Assistant well trained in the Sericultural side of Bacteriological work to supervise and control the technique in the grainages. This officer whose functions will be of a very responsible nature should be at least of the grade of Assistant Superintendent.

The New Sericultural District which presents great potentialities and includes a hill station which is essential to invigoration of stock, requires a staff which cannot only attend to garden, rearing and microscopic work, but also carry on a vigorous propagandist campaign and look after the internal adjustments of a new industry, so as to direct the development on sound lines and train a large number of men to practise it efficiently. I think the minimum requirement is—

1 Senior Inspector or other superior officer.
2 Demonstrators.
2 Inspectors.
2 Operatives.
1 Clerk.

This staff will attend to the local preparation of disease-free eggs also, *not for general supply*, but for being reared as hill or invigorated stock at the Government rearing rooms, for providing seed cocoons to the regular grainages.

I do not propose at present to take up the re-organisation of the other existing institutions; but I need hardly say that it is not possible to draw any men from them, as they are fully and usefully employed. They will be necessary as centres of instruction to the people, and as depots for the distribution of cellular seed from the grainages. I have proposed in another reference, that a number of small scholarships should be attached to some of them for attracting raiyats' sons to undergo a brief apprenticeship in improved methods of rearing.

During the past year I have often felt that it would be a great advantage to have a Central Store where all the requirements of the Department and also some simple requisites which ought to be popularised such as nets, thermometers, porcelain buttons, etc., could be purchased and stocked.

I am confident that a properly equipped store will not only be more economical in the long run, but repay any additional expenditure in staff tenfold in added efficiency; all that is wanted in the way of staff is a Store-Keeper on Rs. 50 per mensem.

I have not proposed any interference with the staff at Mysore because I think they should be left to strengthen the school and develop laboratory work as a part of the training there. It would be a distinct advantage to separate the grainage, which should be against commercial concern from the school, which should be educative. It would not do to import mistakes of learners into work which should be faultless.

The establishment of an experimental and research branch and of a filature are items of outstanding importance in our scheme of future work. For these and in the interests of the general tone and efficiency of the Department it is necessary to recruit men of higher general attainments, and I trust that Government recognise the need to appoint sericultural probationers. I would propose the appointment of two more probationers starting them on Rs. 75 as

students and putting them into the 100—$\frac{50}{2}$—150 grade after a year's practical training.

On the scheme outlined above which does not aim at providing for more than the minimum requirements of the department for the immediate future, the staff necessary would be—

Central School (Existing)	1 Assistant Superintendent. 1 Demonstrator. 2 Inspectors. 2 Operatives (1 working at Hunsur) 1 Clerk.
4 Grainages	4 Senior Inspectors.
(One Supervisor of Grainages).	8 Inspectors or Inspectresses for microscopic work 12 Operatives for preparing slides. 8 Inspectors or Inspectresses for rearing cocoons. 4 Clerks. 4 Peons.
1 New District and Hill Station	1 Senior Inspector or other superior officer. 2 Demonstrators. 2 Inspectors. 2 Operatives. 1 Clerk.
1 Reeling establishment with 10 reels	1 Senior Inspector or Assistant Superintendent. 1 Head Reeler. 9 Reelers.
Government popular schools (It is not proposed to interfere with the existing staff).	
1. T. Narasipur	1 Inspector. 1 Operative.
Reeling School at Santemarahalli	1 Operative.
2. Maddur	1 Inspector.
3. Chikmudavadi	1 Operative.
4. Devanahalli	1 Inspector. 1 Practitioner.
5. Hindignal	1 Demonstrator. 1 Operative. 1 Practitioner.
6. Sidlaghatta	2 Operatives (1 on Rs. 20, another on Rs. 15 is on demonstration work at Sira).

The net increase necessary in the staff is therefore 58.

The effect of these changes appears clearly in the enclosed statement.

The revision is not only necessary in the interests of work, but will provide incentives, by holding out hopes of promotion to men already in the service, and by opening out a career to the more intelligent of the young men and women under training. The increased number of Sericultural Inspectorships can be filled by promotions to the most deserving of the Demonstrators, as well as by appointments on probation of the best of the first class students now under training.

I beg that early orders may be kindly obtained on these proposals.

Letter No. 2329, dated the 11th April 1919, from the Superintendent of Sericulture in Mysore, to the Secretary to the Government of His Highness the Maharaja of Mysore, Departments of Education and Agriculture, Bangalore.

With reference to the last paragraph of Government Order No. 7983-8207—A. & E. 57-18-5, dated the 25th February 1919, requiring me to prepare a programme of work for the ensuing year, I have the honour to submit herewith for the approval of Government a programme of work prepared by me for the year 1919-1920.

DEPARTMENT OF SERICULTURE.

Programme of Work for 1919-1920.

1. Maintenance and improvement of existing institutions.
   Improving equipment of school and farms.
   Fitting out a laboratory.
   Organising experiments in suitable places to secure improvement of mulberry and improvement of silk-worm.
2. Increasing the area under mulberry and planting tree mulberry in selected blocks.
   Introducing mulberry in new areas, after experimentally ascertaining their suitableness.
   Formation of nurseries for supplying seedlings and cuttings.
3. Organising 4 grainages and assisting selected raiyats and Co-operative Societies in preparing and distributing good seed.
4. Improvement of rearing by organising village demonstrations and competitions and encouraging the construction of model rearing rooms.
5. Improvement of reeling and working out the details for the establishment of an up-to-date filature.
   Establishing a standard of quality for silk.
   Improving the quality of waste, and grading different qualities.
   Introducing re-reeling, twisting and chapras making as a home industry in suitable places.
6. Starting Sericultural Co-operative Societies (co-operation of Registrar of Co-operative Societies).
7. Introduction of Sericulture in selected elementary schools (co-operation with the Inspector-General of Education).
8. Study of markets for Mysore silk and the development of a foreign export trade in silk and silk waste.
9. Collecting data in regard to new localities where sericulture can be practised.
10. Collecting and compiling statistics of silk production and issuing departmental leaflets and bulletins.

Order No. 2642-6—I. & C. 33-19-21, dated 10th September 1920.

On a careful consideration of the requirements of the Forest Department and with a view to ensuring an adequate and continuous supply of fuel for the Iron Works, Government are pleased to accord sanction to the construction of the additional lines referred to above.

2. The Agent, Mysore Railways, is requested to prepare detailed estimates for the lines referred to and have them duly sanctioned. The work should not be started until the estimates are sanctioned. The lines should be taken up so as to enable the Railway Department to take full advantage of the market conditions and get materials at as favourable prices as may be possible consistently with the requirements of the Forest Department.

3. In this connection, the Agent, Mysore Railways, is also requested to prepare, in consultation with the Conservator of Forests, a complete statement of all the tram lines required in connection with the Iron Works and send it up to Government with full details regarding the cost of construction, public work materials equipment, etc., required, so that Government may have a full and accurate statement of amounts that may be required for this part of the Iron Scheme.

Those now sanctioned and those that have yet to be sanctioned.

Letter No. 53, dated 9th July 1920, from the Director of Mines and Geology, stating that the Comptroller has taken objection to the Mining Superintendent, keeping amounts received for small items with him without remitting them to the treasury as required by the rules, that it will be inconvenient to remit such amount each time to the Treasury which is at a distance of 40 miles, and suggesting that the Superintendent may be permitted to enter such receipts in his Cash Book and utilize the money for necessary payments at the Mines.

Order No. 2367-8—I. & C. 55-20-2, dated 3rd September 1920.

The procedure suggested by Dr. Smeeth may be followed up to a limit of Rs. 200.

2. The receipts unremitted to the Treasury and expenditure met from them should be separately accounted for monthly to the Comptroller for including both in accounts.

ANNEXURE.

Copy of letter No. 53, dated 10th July 1920, from the Directo rof Mines and Geology in Mysore, to the Secretary to Government, Departments of Education and Agriculture.

The Comptroller has taken objection to the Mining Superintendent, keeping the amounts received for sundry small items at the Mine and crediting to his cash account. The amounts objected to are the following: —

	Rs.	a.	p.
1. Rebate on Explosives . ..	25	12	5
2. Refund of wharfage	10	2	0
3. Adjustment of over-measurement ..	4	8	5
4. Sale proceeds of rice	5	9	8
Total ..	46	0	6

In addition to such items as these, the usual procedure on Mines is for the Mines to purchase various stores, such as, tools, steel, explosives, etc., and sell them to the contractors as required, the receipts being credited against the total cost of the Mining work done on the contract.

If all such items have to be regularly remitted to the Treasury it will, I fear, give rise to considerable confusion in our accounts and render it difficult to get out costs of Mining and other work according to the procedure customarily followed on Mines. Moreover each time such amounts have to be remitted, a special messenger will have to be sent a distance of 40 miles to make the payment to the Treasury. This appears to me to involve considerable trouble and expense which might all be avoided if the Superintendent is permitted to enter such receipts in his Cash Book and utilise the money for necessary payments at the Mine.

I request sanction of Government may be obtained to his procedure being allowed as I think it will save a good deal of trouble and render it easier to keep out accounts in the ordinary business manner. Properly speaking the receipts in question are not receipts for materials, etc., supplied by the Mine (as would be the case in the case of Iron Ore and Lime Stone, etc.,) but are simply internal adjustment in regard to expenditure already incurred.

3. Letter No. 170, dated 16th August 1920, from Dr. Smeeth, Director of Mines and Geology, forwarding a copy of his letter to the Chief Engineer on the subject and requesting that an imprest of Rs. 5,000 may be placed at the disposal of Mr. Morris at the Tarikere Taluk Treasury for expenditure in this connection.

Order No. 2825-30—I. & C. 48-20-18, dated 11th September 1920.

As it is necessary that the road referred to should be restored at a very early date and maintained in proper condition to ensure the transport of materials to the Iron Mines and a speedy and continuous supply of ore to Benkipur, Government direct that the restoration and maintenance thereof, be undertaken by the Director of Mines and Geology, the cost being met as already ordered in the Government Order referred to above. The Chief Engineer is requested to point out to Dr. Smeeth, the portions of the road to be taken over by him and to render all the required assistance in the matter to the Director of Mines and Geology.

2. A proper estimate giving details of the repairs and the cost thereof, should be prepared in consultation with the Public Works Department and sanction obtained.

3. Pending further orders on the exact amount to be debited to the Iron Scheme, Government are pleased to direct that a sum of Rs. 20,000 be set apart from the Iron Scheme Budget for the purpose.

4. An imprest of Rs. 5,000 from this amount will be placed at the disposal of Mr. Morris at the Tarikere Taluk Treasury to be recouped on presentation of bills duly countersigned by Dr. Smeeth and forwarded by him to the Tarikere Treasury.

A Committee to review the Progress made by the Co-operative Movement in the State.

No. 2836-91—E. C. 125-19-4, DATED 13TH SEPTEMBER 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. 2836-91—E. C. 125-19-4, dated 13th September 1920.

At a meeting of the Legislative Council held on the 25th March 1920, Rajakaryaprasakta Rao Bahadur M. Shama Rao moved a resolution for the appointment of a Committee to review the progress made by the Co-operative Movement in the State to study the conditions affecting it with special reference to agricultural development and the removal of the indebtedness of the raiyats and to submit recommendations to Government in order to bring about a sound and more rapid expansion of the co-operation in future in the State. His Highness' Government recognised the usefulness of an investigation of the kind suggested and promised to take steps for the formation of a Committee for the purpose.

2. They are accordingly pleased to constitute a Committee to carry on the investigation. The Committee will be composed as follows:—

1. Chairman:—Member of Council in charge of co-operation.
2. Secretary:—Registrar of Co-operative Societies.
3. Members:—i. The Secretary to Government, Departments of Education and Agriculture.
   - ii. The Director of Agriculture in Mysore.
   - iii. Rajakaryaprasakta Rao Bahadur Mr. M. Shama Rao, M. A., Retired Inspector-General of Education and Honorary Secretary of the Bangalore Central Co-operative Bank.
   - iv. Mr. M. Karnik Krishnamurti Rao, Landholder and Vice-President, Provincial Co-operative Bank, Bangalore.
   - v. Mr. C. Subba Rao, B.A., B.L., Advocate and Honorary Secretary, Shimoga Co-operative Bank.
   - vi. Mr. Zahiruddin Mecci, B.A., Deputy Commissioner, Kolar.

Steps will be taken to associate with the Committee a leading Co-operator from British India.

3. The main duties of the Committee will be—

(*a*) to examine the progress of co-operation in the State in all its aspects and stages,

(*b*) the effects on agriculturists of the heavy indebtedness under which they now labour and the minute sub-divisions into which the holdings are sub-divided and the influence of the co-operative movement on these factors,

(*c*) the organisation, constitution, management, audit and inspection of societies of all kinds, both primary and central,

(*d*) the development of non-credit co-operation, more especially in connection with agriculture and the smaller industries,

(*e*) the application of co-operative principles to house-building, cattle breeding and insurance, dairying and similar other purposes,

(*f*) the disposal of co-operative disputes, and

(*g*) any other matter of fundamental importance to the movement.

4. The Committee will be at liberty to examine such witnesses as it deems fit, obtain such statistics and information as it may require and visit such places and institutions as it may consider necessary.

No. 2836-91—E. C. 125-19-4, DATED 13TH SEPTEMBER 1920.

5. The Committee is requested to complete their investigation within a period of three months and to submit their report by the 1st January 1921.

6. All departments and officers of Government are requested to render all the assistance which the Committee may require. The non-official members of the Committee will be paid travelling allowance at rates allowed to Legislative Council members.

Copy of letter No. Books, 2523, dated 12th May 1920, from the Comptroller, Mysore Government, to the Financial Secretary to Government, Bangalore.

ANNEXURE.

I have the honor to state that it often happens that the Public Works Department is required to execute works for departments comprised in groups other than Public Works Department. The procedure now generally adopted to account for expenditure incurred in Public Works Department on such works is to show it in the Public Works Divisional accounts as a direct charge to the service heads of the departments benefited by the expenditure, because the expenditure is ordered to be met out of the provision included in the budget of the departments concerned and the requisite provision cannot under the Financial Settlement scheme be transferred from one group to another without affecting the balance of the groups of departments concerned.

2. Though this procedure is simple, it is yet opposed to the rules of classification requiring that all charges incurred in the Public Works Department should be treated as final charges of the Public Works Department, (*Vide* Article 450 of the Mysore Account Code, Vol. iii, Part 1 and Article 1006 of the Civil Account Code). To secure therefore a correct and uniform procedure it is necessary that for all charges to be incurred in the Public Works Department and requiring to be classified under the Public Works heads in accordance with the rules of classification, there should be corresponding allotments included for such works under the Public Works heads themselves. But at present the allotments for works to be executed by the Public Works Department are scattered under all the major heads in the budget probably because the department to be benefited by the expenditure takes the initiative of proposing the required provision or probably because these departments are anxious to have the works executed from their own assignments and balances, if the assignments or balance of group Public Works does not admit of this outlay being met. The charges incurred are therefore now classified under the heads in which the provisions appear. As this is not right, the allotments for all works to be executed by the Public Works Department irrespective of the departments actually benefited by the outlay or of the heads in which the allotments are actually included in the budget should be included under the head Public Works. I therefore request that this practice may invariably be adopted in future in fixing budget grants. If Government consider that this is not for any reason practicable, I beg to suggest that they may authorise this office to transfer to the Public Works heads all such allotments in consolidating the budget estimate, and by reappropriation if such transfers are considered necessary after the budget is issued.

3. If Government accept this proposal, the outlay incurred in the Public Works Department on works relating to other departments will be classified under the major head Civil Works in the usual course against the sanctioned allotment. But if it is the intention of Government that such outlay should be met out of the assignment or balance of other groups of departments actually benefited by the outlay and not of the group Public Works needful adjustment may be made through the *pro forma* account as is now done in the case of Public Works relating to the group Palace.

Under the existing procedure all receipts payable to the credit of the account of an Inamdar debtor whose estate is under Government management are credited in the first instance to a deposit account and at the end of the year the Deputy Commissioner makes an adjustment from this deposit account to the loan account.

This arrangement requires change. After retaining under the deposit head the part of annual realisations required for expenditure to be incurred on the estates the balance should be credited to the loan accounts of debtors on the day on which the amounts are received on behalf of the estates under Government management.

(4) Letter dated 12th August 1919, from Mr. A. Thangavelu Mudaliar, Honorary Secretary, Rai Bahadur Arcot Narayanaswamy Mudaliar's Educational Charities, Bangalore, stating that the sum of Rs. 1,53,200 endowed by the late Rai Bahadur Dharmaratnakara Arcot Narayanaswamy Mudaliar for certain charities founded in the Civil and Military Station, Bangalore, represents—

(1) the allotment of Rs. 1,28,200 made for schools and (2) of Rs. 25,000 made for chattram and other charities, each of these being dealt with by distinct and separate Trust Deeds ; and requesting that the endowment accounts may be opened under two heads, one for Rs. 1,28,200 "Schools" and the other for Rs. 25,000 "Chattram and other Charities," so that the interest due on the two allotments may be paid separately, the former to the Trustees of R. B. A. N. M.'s Educational Charities and the latter to the Trustees of the R. B. A. N. M.'s Chattram and other Charities ; and forwarding an extract from the proceedings of a meeting of the Board of Trustees of the Educational Charities held on 5th June 1919, on the subject.

(5) Correspondence ending with letter No. 98—Books, dated 15th July 1920, from the Comptroller to Government, forwarding a copy of letter dated 24th May 1892, from the donor to the Comptroller, stating that the endowments should be kept under two distinct heads, *viz.*, (1) for schools and orphanages and (2) for chattram and other charities ; and stating that the donor has also executed two separate trust deeds, one for Rs. 90,000 and another for Rs. 25,000 and that he is, therefore, of opinion that the bifurcation now proposed to be made is not inconsistent with the trust deeds.

Order No. 825-6—Muz. 232-19-7, dated 1st September 1920.

Out of the original endowment of Rs. 1,15,000 a sum of Rs. 90,000 was intended for the benefit of schools and orphanages and Rs. 25,000 for the benefit of the chattram and other charities. Subsequently, a sum of Rs. 38,200 was added on to the original deposit of Rs. 90,000 for the benefit of the orphanage and industrial school. Thus, the total sum endowed for the benefit of the orphanage and schools is Rs. 1,28,200 the balance of Rs. 25,000 being for the benefit of the chattram and other charities.

2. Under the above circumstances, Government are pleased to accept the recommendation of the Comptroller and to direct that the endowment accounts be opened under two distinct heads, *viz.*, (1) for schools and (2) for chattram and other charities, as requested by the Honorary Secretary of the Charities in his letter read above.

Order No. 926-8—Muz. 439-19-7, dated 6th September 1920.

Abdul Rasool, the last holder of the Office of Khazi, having died on 23rd July 1917, his son Abdul Haffiz was recommended for the place on the ground of his being the nearest heir, though he was not qualified for the place by either character or ability. As the appointment of such a person was considered undesirable, the Deputy Commissioner was requested to convene a meeting and to ascertain the sense of the Mahomedan community of the station by taking their votes as regards the appointment of a competent literate person of character and ability for the office. The Deputy Commissioner now reports that at the meeting convened for the purpose on 7th July, one Abdul Gaffoor (the deceased Khazi's brother's son) got a larger number of votes than Abdul Haffiz ; and recommends that, as he is in every way qualified for the place, he may be appointed to the vacant post. Letter No. R. C. 42 of 1920-21—Muzrai, dated the 20th July 1920, from the Deputy Commissioner, Mysore District, submitting for sanction, proposals for the revision of the rates of certain *Sevarthas* in the Sri Srikanteswaraswami temple at Nanjangud, with a view to improve the finances of the institution.

Order No. 934-7—Muz. 32-20-2, dated 7th September 1920.

The temple of Sri Srikanteswaraswami at Nanjangud, which is one of the most important of the Muzrai institutions in the State, has not been able, for some time past, to meet its normal expenditure, and the question of augmenting its resources has been under the consideration of the temple authorities as well as the Taluk and the District Officers. The matter was fully discussed at a meeting of the Dharmadarsis of the temple held on the 6th July 1920, at which the Muzrai Superintendent in Mysore was also present.

2. It was resolved at the meeting that, the rates of certain *Sevarthas* might be increased and a fee of three pies levied on every cocoanut offered to the deity by the pilgrims.—

(*a*) inside the temple always, the residents of Nanjangud being, however, exempted from the operation of this rule, and

(*b*) outside when the deity is taken in procession on the car. The Deputy Commissioner, Mysore District, states that he fully concurs with the opinion of the Dharmadarsis in the matter and recommends that the rates of *Sevarthas* as proposed by them may be sanctioned.

3. In these circumstances, Government are pleased to sanction the levy of the revised rates of fees in the temple as per statement appended.

4. The Deputy Commissioner is requested to submit at an early date his views on the other resolutions of the Dharmadarsis.

Surplus Funds of Muzrai Institutions.

No. 1033-50—Muz. 340-19-4, dated 14th Septemeer 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Order No. 1033-50—Muz. 340-19-4, dated 14th September 1920.

At the last Dasara Session of the Representative Assembly, it was urged that the Excise revenue of the Inam villages of the Sri Chamarajeswaraswami temple at Chamrajnagar might be granted as a loan to Chamrajnagar Municipal Council to enable that body to construct houses for the poor, the cost thereof being recovered in instalments, as in the Mysore City Improvement Trust Board.

2. There is no legal, or financial, prohibition to the funds of a temple or other Muzrai institution being utilized for the grant of loans to other Muzrai Institutions, or to Municipalities who stand in need of funds provided the borrowers are in a position to pay interest on the loan and repay the principal within a reasonable period.

3. Government are therefore pleased to accord general permission to the grant of loans from the funds of Muzrai institutions having surpluses at their credit to local bodies, or to other Muzrai institutions, subject to sanction, in each case, of Government in the Muzrai and the Financial Departments.

Endowment by Mr. D. Appu Rao, for the Benefit of Sri Anjaneyaswami Temple in Jodi Muthukadahalli Village, Malur Taluk.

No. 943-5—Muz. 4-19-5, dated 7th September 1920.

PROCEEDINGS OF THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

GENERAL AND REVENUE DEPARTMENTS.

Read—

Second note R. C. 1650, dated 13th January 1920, from the Muzrai Superintendent in Mysore, recommending the acceptance of the endowment of Rs. 1,000 to Sri Anjaneyaswami temple in Jodi Muthukadahalli village, Malur Taluk, by the late Mr. D. Appu Rao, retired Deputy Superintendent, Mysore Revenue Survey.

Subject.—Endowment to Sri Anjaneyaswami temple at Muthukadahalli in the Malur Taluk by the late Mr. D. Appu Rao.

In continuation of my predecessor's note No. R. C. 1650, dated 28th June 1919, I beg to state that Mr. Appu Rao sent with his application of the 7th June 1919, a cheque for Rs. 1,000 on the Bank of Mysore, but he died before the cheque could be presented for encashment, and the Bank consequently refused to pay the amount.

2. Thereupon I placed myself in communication with the sons of Mr. Appu Rao and enquired as to whether they were prepared to carry out their father's wishes. After much protracted correspondence, Mr. D. Srinivasa Rao, the eldest son of Mr D. Appu Rao, has sent a bond of the Mysore Conversion Loan of 1919-20 bearing 5½ per cent interest duly endorsed in favour of the Dewan of Mysore and requests that this may be accepted as an endowment for the temple. I beg, therefore, to recommend that the endowment may be accepted.

3. On receipt of Government Orders, proposals for the utilization of the annual interest will be submitted in consultation with Mr. D. Srinivasa Rao.

4. The bond which has been kept in safe custody in my office will be forwarded to the Comptroller on receipt of Government Orders.

Order No. 943-5—Muz. 4-19-5, dated 7th September 1920.

Government are pleased to accept the bond for Rs. 1,000 of the Mysore Conversion Loan of 1919-20 bearing 5½ per cent interest, as a specific endowment to be held in trust for the maintenance of the temple in question.

2. The bond which has been received duly endorsed in favour of the Dewan of Mysore and kept in safe custody of the Muzrai Superintendent will be sent to the Comptroller.

3. The Muzrai Superintendent will draw the interest as it falls due and pay it to the Manager of the institution. He will also submit proposals for the utilization of the annual interest, in consultation with Mr. D. Srinivasa Rao.

Government Order No. Fl. 3994-7—G. F. 36-18-12, dated 17th February 1919, sanctioning interest at 5 per cent per annum for a period of five years from 1st July 1918, on the Charitable Deposit of Rs. 1,000 offered by Mr. G. Venkataramaniah, Pleader, Bangalore City, for the benefit of the Sri Ramakrishna Matt, Bangalore, and accepted in Government Order No. 24047—Muz. 427-16-2, dated 27th March 1917.

2. Government Order No. 13-16—Muz. 663-19-4, dated 3rd July 1920, accepting a further deposit of Rs. 1,100 offered by Mr. G. Venkataramaniah, under the Charitable Endowment Rules, for the benefit of the Sri Ramakrishna Matt at Bangalore and allowing interest thereon at 5 per cent only up to 29th July 1920 and thereafter at such rate as may then be determined by Government.

3. Correspondence ending with letter dated 22nd August 1920, from Mr. G. Venkataramaniah, stating that he has invested a sum of Rs. 1,237-8-0 in the Mysore State Loan of 1920 and will request the Comptroller to issue bonds of the value of Rs. 1,250 in the name of the Dewan of Mysore, requesting that the above bonds may be accepted in lieu of cash that he had offered before to deposit; that the half-yearly interest thereon may be paid to the President of "Sri Ramakrishna Asrama, Bangalore City; and that after the repayment of the loan by Government, the amount may be transferred to the Charitable Deposit or reinvested in any other manner profitable to the Matt: and adding that the bond under the Charitable Deposit Rules has not yet been executed by him.

Order No. 1158-61—Muz. 663-19-8, dated 21st September 1920.

In modification of the Government Order read above, Government are pleased to direct that the Loan Bonds that may be tendered by Mr. G. Venkataramaniah be accepted in lieu of cash and the half-yearly interest thereon paid to the President of the "Sri Ramakrishna Matt" as desired by him.

PUBLIC WORKS DEPARTMENT.

Order No. P. W. 600-05—B, 3231-36, dated 29th September 1920.

Several instances have been brought to the notice of Government, in which estimates are revised long after the excesses are incurred on account of various reasons. In some cases, the sanctioned designs are changed involving additional cost ; in some, works other than what are provided for in the sanctioned estimate are carried out on the requisition of the departmental officers on whose behalf the works are undertaken ; in others, increased rates are promised to contractors without the approval of competent authority. The revised estimates covering all such unauthorised excesses are submitted long after they are due ; and the submission of such estimates is futile as the works will have already been carried out, and any contrary orders would cause great confusion.

2. It is needless to say that such an irregular procedure which is against the Code Rules leads to endless delays in the completion of works, and causes great embarrassment to the contractors and Government alike.

3. Government regret to observe that, in spite of several circular orders issued by the Chief Engineer from time to time, this procedure has not been stopped and Government cannot but deprecate the same.

4. Government therefore direct that in future no additional works should be carried out other than what is sanctioned nor any enhancement of rates should be promised involving an excess over the sanctioned estimates without the express approval of competent authority. The Code Rules in this matter are clear and should be rigorously followed. Serious notice will be taken of any deviation from this order.

RAILWAY DEPARTMENT

READ—

Notification No. 122-28—Rys., dated the 19th July 1920, appointing the Agent and Secretary to be Traffic Manager in addition to his other duties.

2. Railway Secretary's Note No. 217 of 29th July 1920, submitting proposals for the re-organization of the Traffic Department of the Mysore Railways consequent upon the abolition of the appointment of an independent Traffic Manager and the combination of the post with that of the Agent and Secretary for Railways.

Order No. R. S. 538-42—Ry. F. 65E-20-21, dated 1st September 1920.

Till now the executive as well as the administrative work of the Traffic Department has been concentrated in the Traffic Manager aided by two Assistant Traffic Superintendents. This centralised system though apparently economical is not considered satisfactory especially after the resumption of the Bangalore-Nanjangud and Birur-Shimoga Sections from the Madras and Southern Mahratta Railway. This coupled with the combination of the posts of the Traffic Manager and the Agent has rendered the decentralisation in the working of the Traffic Department necessary.

2. The Railway Secretary has accordingly submitted proposals for the re-organization of the Department which consists in the main in the formation of two Traffic District Offices and the creation of the post of a new Traffic Inspector.

3. Government after due consideration of the proposals, are pleased to sanction the following arrangements as a tentative measure :—

(i) The formation of two Traffic District Offices at Mysore and Bangalore with an Assistant Traffic Superintendent in charge of each with powers as in Appendix A and establishment costing Rs. 257 per month.

(ii) The combination of the Office of the Traffic Manager with that of the Agent assisted by an Assistant Traffic Superintendent under the designation of Assistant Traffic Manager with the same emoluments as those of the present Assistant Agent (Traffic).

(iii) The scale of establishment required for the Traffic Section of the Agent's Office costing Rs. 1,195 per month.

(iv) The creation of the post of a new Traffic Inspector on the usual scale of Rs. 100—10—150 and the appointment of Mr. M. N. Kasipathaiya, the present Chief Clerk of the Traffic Manager's Office to the place on Rs. 110 per month.

(v) The appointment of Mr. D. Ananda Rao, Head Clerk, as Chief Clerk on Rs. 100 *vice* Mr. M. N. Kasipathaiya.

4. A statement of establishment now sanctioned for the combined Traffic Section of the Agent's Office as also for the two District Offices is appended.

Government Order No. R. S. 1368-78—Ry. F. 313 G.-19-20, dated the 30th January 1920, appointing a Committee for hearing the contractors in connection with their claims for work done on the M.-A. Railway.

2. Letter No. 90, dated the 29th July 1920 from the Secretary to the Committee forwarding the records connected with the case of Mr. C. Guruva Reddy, one of the 13 contractors that appealed to Government, with the findings of the Committee on the various points contained in his appeal.

Order No. R. S. 583-86—Ry. F. 313 G. 20-21, dated 7th Sept. 1920.

The Committee after fully going into the records, measurement books and bills, in order to have a clear knowledge of work done by the said contractor under each item of work and to obtain an ineligible account of claims put forward by him, analysed the whole case into 22 items of work, 8 of which come under 'Earthwork Cutting' 10 under 'Bank' and 4 under 'Bridges.'

2. The case was then heard by the Committee at three of their meetings on 16th April, 24th April and 22nd May 1920 and after hearing the contractor and his representative, they are of opinion :

(1) That reclassification of soils for refixing rates is out of question at this distance of time, as the Assistant Engineer, who measured the work in the first instance and the Executive Engineer who has occasionally checked the work are the best persons whose testimony must be accepted as to *the audit of facts* ;

(2) That the contractor having accepted the measurements and classification each time a bill was prepared the items as recorded in the measurement book should be allowed to stand unchallenged, and

(3) that any higher rate than already allowed by the Department is not admissible, on any ground of justice for the following reasons even though the contractor claimed in every case the highest rate without reference to the nature or quality of work done :—

(*a*) *Under Cutting.*—The through rate allowed by the Department exceeded that calculated on the average of maximum and minimum rates for each class of work or soil.

(*b*) *Under Bank.*—Through rates are to be worked on the minimum for each kind of soil and not on the average of maximum and minimum rates, as it is the easy surface soil that is worked on to the banks.

3. Government agree with the opinion of the Committee and direct that the appeal of the contractor Mr. C. Guruva Reddy be dismissed.

Government Order No. R. S. 152-46 —Ry. F. 23 E 18-19, dated the 28th November 1918, sanctioning a scale of establishment for the combined Office of the Secretary for Railways and Agent, Mysore Railways.

2. Government Order No. R. S. 3421-25—Ry. F. 71 E-18-19, dated the 21st June 1919, sanctioning a scale of establishment for the Office of the Superintending Engineer, Construction and Open Lines.

3. Correspondence ending with Railway Secretary's Note No. 876 of 23rd August 1920, submitting for sanction certain proposals for the re-organisation of the Engineering and Agency Departments of the Mysore Railways, exclusive of the Secretariat Section which will continue with its sanctioned scale except with regard to its Drawing Branch.

Order No. R. S. 623-27—Ry. F. 23 E-20-21, dated 10th September 1920.

1. Hitherto the Open Lines along with the Constructions and Surveys were under the charge of a Superintending Engineer, the Agent as Chief Engineer, exercising general supervision over him. Time has now come to transfer the Open Line Section to the direct charge of the Agent as Chief Engineer, and place the Superintending Engineer exclusively in charge of Constructions and Surveys, giving him an establishment similar to that given to a Superintending Engineer in the Public Works Department, and keeping the latter office only on a temporary basis till the Constructions and Surveys are in progress.

2. Government after due consideration are pleased to accord sanction to the following proposals of the Railway Secretary:—

(i) To separate the Open Lines Sections from Construction Divisions and to place all Open Lines in charge of the Executive Engineer, who will be under the direct orders of the Agent as Chief Engineer.

(ii) To the continuance of the post of Assistant Agent, Engineering, under the designation of Assistant Agent and with the same emoluments.

(iii) To place the Superintending Engineer in charge of Constructions and Surveys only and to treat his office as a temporary one while the Constructions and Surveys last.

(iv) To the creation of the post of an Engineering Sub-Divisional Officer at Tarikere to be in direct charge of the Birur-Shimoga Branch and Tarikere-Narasimharajapura Tramway and for the scale of his office establishment costing Rs. 70 per mensem as per statement appended.

(v) To transfer the ersonal Assistant to the Superintending Engineer as Personal Assistant to the Chief Engineer.

(vi) To the revised scale of establishment of the Agency and Engineering Branch at a cost of Rs. 2,026 per mensem as per statement appended.

(vii) To the office establishment of the Superintending Engineer, Constructions and Surveys, costing Rs. 907 per mensem, as per statement appended.
